Mixed Plan For Handling 1931 Prairie Grain

Part Pool Scheme For Elevators of Plains Announced

Co-operatives Will Run Elevators in Same Way as Private Institutions, But Will Accept Voluntary Pool Shipments; Premier Bennett Says Panic Conditions Will Not Be Permitted

Ottawa, Aug. 7.—Premier Bennett today issued the following statement with respect to the handling of the 1931 wheat crop:

The wheat pools of the three western provinces, which own nearly 90 country elevators, as well as terminals at Vancouver and Port Williams, will operate this year in the same way as privately-owned enterprises. They will have ample working capital, and the provinces will not be asked to guarantee their operations.

"As a substantial number of producers desire to market their grain on a pool principle, the elevators operated by the pools in the several provinces will afford to such producers an opportunity to have their grain dealt with by the operation of a voluntary pool. The elevators will make to such producers an initial payment of 35 cents a bushel on the same basis as to salinity and point of delivery as in previous years.

"The Dominion Government will take whatever action may be necessary to insure the orderly marketing of the crop of the year. Panic conditions will not be permitted to control the flow obtainable for this year's western grain crop."

STEWART TO BE HEAD OF NEW P.E.I. CABINET

Charlottetown, P.E.I., Aug. 7.—J. D. Stewart will form a cabinet as a result of the Prince Edward Island general election held yesterday, which gives the conservatives nineteen seats and the liberals eleven in the General Assembly.

At dissolution the Liberal government under the leadership of Hon. Walter M. Lea had a majority of sixteen members in the Legislature, the balance then being twenty-two Liberals and six Conservatives, with two seats vacant.

Mr. Lea was re-elected in the Fourth district of Prince County with a majority of fourteen votes, but five of his ministers were unsuccessful. They were all members without portfolio.

DO-X FLIES TO PARA, BRAZIL

Rio de Janeiro, Brazil, Aug. 7.—Admiral Do-X, the German flying boat, today left for Para, Brazil, on a route to New York from Rio de Janeiro, landed there this morning, refueled and an hour and a half later took off for Maranhao.

Maranhao is 250 miles from Camoim and is 300 miles from Para, where it is expected the DO-X will spend the night.

To-day's flight started from Natal.

NEW SOUTH WALES REDUCES PAY OF CIVIL SERVANTS

Sydney, N.S.W., Aug. 7.—Both houses of the Legislature of New South Wales today passed a measure reducing from 5/6 to 3/4 per cent the salaries of all government employees earning from \$1,000 to \$7,500 a year.

VANCOUVER POLICE HUNT SAFE TAKEN BY BANDITS

Vancouver, Aug. 7.—Police here today were searching for a one-ton safe which, up to yesterday evening was in the building of the Orange Crush Co. on West Fourth Avenue.

When bandits took the strong box away in the dark hours in one of the company's trucks, a vehicle of four-ton capacity, they also took the \$400 it contained.

At 6 o'clock this morning police discovered the premises had been broken into, and company officers, on being notified, reported the loss of the safe and truck.

LINDBERGH, LEAVING AKLAVIK, PLAN STOP BESIDE SHIP OFF ALASKA

Ottawa, Aug. 7.—Satisfied with the weather reports, Col. and Mrs. Charles A. Lindbergh, Tokyo-bound from Washington, planned to leave Aklavik for Point Barrow, Alaska, early this afternoon.

Information received here through the Department of National Defence radio stations, operated by the Royal Canadian Corps of Signals, stated 10.55 a.m. M.S.T. (9.55 a.m. Victoria time), said Lindbergh and his wife had scanned weather advice, which indicated good flying conditions prevailed in Alaska, except for fog at Point Barrow, and had immediately prepared to start. At Aklavik the visibility was good.

After the 536-mile westward trip to Barrow, at the northernmost tip of Alaska, Lindbergh plans to refuel for the trip to the Orient, the operation to be carried out alongside one of the northern trading vessels there, his refueling ship, the United States cutter Northland, having been kept from reaching Point Barrow by ice floes.

From the Point Barrow district the Lindberghs plan to fly to Nome and then to the Kamchatka Peninsula and Japan as indicated by the above map.

A dispatch by radio from Aklavik this morning said:

Col. Lindbergh declared his planned route to Tokyo skirted along the Siberian coast and his wife intended to continue their journey to China, but the men's luggage was not yet packed.

H.M.C.S. Skeena Given Welcome Here To-day

New Destroyer Greeted in Straits by H.M.C.S. Vancouver and Excursion Party Aboard Ss. Princess Elizabeth; Officers Aboard Ship Are Well Known in City

Welcomed by H.M.C.S. Vancouver and nearly 350 Victorians aboard the C.P.R. steamer Princess Elizabeth, H.M.C.S. Skeena, first of two warships especially built for the Royal Canadian Navy, passed Race Rocks shortly after 2.30 o'clock this afternoon and steamed into Esquimalt Harbor, her future base on the Pacific Coast.

The Boys' Band of the Navy League was aboard the Princess Elizabeth and rendered a programme of naval airs as soon as the Skeena and the Vancouver were sighted. The captain of the Elizabeth also sounded a welcome with his ship's whistle and the vessel itself was gay in welcoming flags. Hon. R. H. Pooley, K.C., attorney-general, was aboard the Elizabeth, representing the government of the province. Others aboard, in addition to the executive of the Navy League, under whose auspices the trip was held, included Capt. J. W. Troup and E. W. McMullen.

H.M.C.S. Vancouver left her base in Esquimalt Harbor early this morning intending to go out into the straits as far as Cape Flattery to meet the Skeena. She will accompany her back into Esquimalt Harbor. The Skeena will anchor out in the harbor until Monday morning when she will go alongside official calls and to be open to public inspection. She will be unable to go to Seattle for the Fleet as far as the Pacific Coast.

TRANSIENTS TO BE CHECKED

Vancouver, Aug. 7.—A Victoria dispatch to The Province this afternoon said:

"British Columbia to-day took drastic action to stop the influx of unemployed from other provinces by ordering all assistance for newcomers to cease August 15. After that date the government will give no direct relief to any unemployed person who entered this province since May 7 last. This will limit all relief to persons who have been in the province more than three months."

A. CAMPBELL IS TO BE DEPORTED FROM B.C. COAST

Vancouver, Aug. 7.—Allan Campbell, alias William McEwan, who was held at the Okalla prison farm for several months under sentence of a year's imprisonment in connection with sedition charges, will be deported immediately to Scotland.

He has been removed from Okalla and is in charge of Canadian Immigration officials here.

The Department of Justice issued a conditional parole to Campbell and notified him that if he preferred being returned to Scotland it could be done at once. Otherwise he would have to remain in prison until the expiration of his sentence next spring and would then be deported.

Fliers Reported to Have Plunged With Machine Into Lake Near Toronto

Eyewitnesses Tell of Seeing Wings Drop Off and Seaplane Nose Dive Into Lake Ontario, But Tug Crews and Lifesavers Fail to Find Wreckage

Canadian Press

Toronto, Aug. 7.—Two tugboats and a life-saving crew this afternoon cruised a mile off the shore of Scarborough Bluffs, just east of Toronto, in an effort to locate the remains of a seaplane which was reported to have crashed into Lake Ontario this morning. Although a number of eye-witnesses reported seeing a plane fall into the water, at a late hour this afternoon the wreckage had not been discovered.

Lifesavers were continuing their search.

According to eye-witnesses, the pilot sent up several smoke bombs before the plane crashed into the water.

The plane was first noticed hovering about the lake by three employees of a dance pavilion at Scarborough Bluffs. It suddenly nosedived into the water and rested, partly submerged, it was stated. Those who saw it could not determine how many passengers were aboard, nor could they see any markings on the plane. Lifesavers were dispatched to the scene as soon as a word of the crash had reached police headquarters.

According to William Malcolm, who witnessed the crash, the plane was flying just a few feet above the water, apparently going to alight, when both wings seemed to drop off. The plane, he said, nosedived into the water about a mile off shore and then floated to the surface.

NORMAL SCHOOL ENROLMENT TO BE RESTRICTED

Only 140 Students Will Be Allowed to Attend Local Institution Next Year

Applications Close August 21; Scholarship Standing to Be Basis of Selection

For the first time in the educational history of British Columbia, registrations of students seeking to attend normal schools in Victoria and Vancouver will be restricted. It was announced by the Department of Education this morning. At the Victoria school only 140 students will be accepted this year. These will be determined on a scholarship basis, and will be selected from the number of applications in the hands of the department by August 21, when registrations will be closed.

Officials of the Education Department stated the record surplus of teachers and the comparative scarcity of positions, had led them to cut down on the number training for the profession. To do otherwise, they contended, would be to swell the ranks of the unemployed teachers next year.

SCHOLARSHIP BASIS OF SELECTION

When applications close, the names and qualifications of those seeking admission into the Victoria Normal School will be turned over to the principal of the institution. Along with a special committee he will determine the scholastic merit of the different candidates, and will choose those who have the highest standing to form the student body.

Under this arrangement the scholar will receive preference over those coming straight from high school. As far as the actual college graduate is concerned, the new regulation will have no effect. This type of student is permitted to take a teachers' training course at the University of British Columbia, which is outside the jurisdiction of the normal school authorities of Victoria or Vancouver.

YOUNG CYCLIST AT SOOKE MEETS INSTANT DEATH

David A. Blythe Killed in Crash Between Car and Bicycle on Highway

A coroner's jury this afternoon will inquire into the death at Sooke yesterday of David Arthur William Blythe, fifteen-year-old son of Mr. and Mrs. David Blythe, 1879 Neal Street, killed in a collision between his bicycle and an automobile.

Young Blythe met instant death in the accident, which happened at the intersection of Church and Sooke roads, police were informed. His motorcycle collided with a car driven by Horace Sims of the Sooke Harbor Fishing and Packing Company and the boy was thrown against a sun-visor on the car, his head being injured.

With a companion, George Peters, also riding a bicycle, the boy was going to a store on the Sooke Road. The police report that the car was making the turn from Church Road to Sooke Road, an acute angle, when his bicycle came into collision with the car driven by Mr. Sims, who was on his way to Sooke River from the harbor.

Corporal R. J. Harvey and Constable A. Carmichael of the Provincial Police went to the scene. The body was brought to Haywards' B.C. Funeral Chapel where the inquest started at 4 o'clock this afternoon.

David Blythe was the youngest son of Mr. and Mrs. Blythe. He was a member of the Sea Cadets. During the holidays he was camping at Otter Point.

The funeral will take place tomorrow afternoon at 3.30 o'clock with interment at Ross Bay Cemetery.

ELECTION RUMORS DENIED

Winnipeg, Aug. 7.—Rumors of a general election in Manitoba in the fall were denied at the Legislative Buildings here to-day. The present administration has another year before its term expires. Premier John Bracken declared that when the time came for an election the public would be notified through the proper channels well in advance.

QUICK RELIEF IS NECESSARY

Committee Seeks Workers to Aid in Collecting Fund for Unemployed

"Unemployed married citizens of Victoria are not concerned with academic discussions as to the cause of the present-day economic situation," said a representative of the citizens' unemployed relief fund committee to-day. "When men are vainly trying to 'keep the wolf from the door,' matters of gold-standard, currency, exchange, restricted credit, and other contributory causes mean nothing. They need food and other essentials of life, and need them quickly."

"But there is another very important feature to be considered in the effort to raise \$250,000 for relief. Increase of currency by a quarter of a million dollars would be a Godsend to the business men of Victoria. This sum, distributed among the merchants during the next nine months, would probably save more than one from disaster. The fund will serve a dual purpose: it will prevent suffering in families of unemployed men, and increase the safety margin for many harassed business men."

ACTION SOON ON COURTHOUSE

Plans Call For Lofty Skyscraper in Victoria

The provincial government will shortly announce the location of the new courthouse for Victoria and at the same time will publish the cost of the undertaking and the type of building to be erected. Announcement of the location will probably accompany inception of preliminary work on the site, Hon. R. W. Bruhn, Minister of Public Works, said to-day.

NO SITE CHOSEN

Asked as to the site to be occupied by the new building, Mr. Bruhn denied that Elliott Street had been definitely selected or that any other site had been decided upon.

At the last session of the Legislature \$100,000 was appropriated for commencement of construction of a courthouse in Victoria. Since then the government has been pressed to place the proposed building on the site of the old Christ Church Cathedral, on Government Street, between Elliot and Superior Streets, and on Superior Street, facing the Provincial Library.

Plans were prepared several months ago for a lofty structure, similar to New York's skyscrapers.

IDAHO BROKER SHOTS SELF

Wallace, Idaho, Aug. 7.—T. T. Fohlman, broker in Wallace for sixteen years, shot and killed himself to-day, supposedly because of financial troubles. He leaves a widow and brothers in Spokane.

Early Tax Collections Are Highest On Record

Out of a total levy of \$1,816,022 required to be raised by taxes in Victoria this year, \$651,061.72, or 35.5 per cent, has already been paid. Figures released this morning by Edwin C. Smith, city treasurer, show. This is the highest percentage on record at this time of the year.

The prepayment system for taxes, inaugurated some years ago, by which early taxpayers receive a discount on their bill is credited with achieving the big collection. Those who owe money to the city until the end of the month to take advantage of prepayment as the discount stops on September 1. During September the actual rate must be paid and then on October 2 the first penalty is added to the account.

Prepaid taxes are actually \$68,236.64 higher this year than in 1930 at the present time, the total up to August 6 of this year being \$651,061.72.

By paying early, the property owners have saved \$17,379 in discounts or \$1,499 more than in 1930. It can be noted from these figures that, by prepayment, some property owners have been able to save almost the full amount of the tax increase necessary this year. Interest is allowed at the rate of six per cent from the date of payment until the due date.

Hitch In Japan In Plans Of Two Pacific Fliers

Government Wants Pangborn-Herdon Camera Explained Before Leaving

Canadian Press
Tokyo, Aug. 7.—Clyde Pangborn and Hugh Herndon Jr. made plans to-day for a non-stop flight to Seattle despite the fact their big red monoplane was under lock and key at the Ministry of Communications hangar at the Tachikawa Airfield, near here.
"We are undecided yet as to when we shall take off," Pangborn said. "but we may wait here until the arrival of Col. and Mrs. Charles A. Lindbergh. However, we may start next week."
Pangborn said he based his statement on the assumption that difficulties with the Japanese Aviation Bureau resulting from their failure to obtain a permit to land in Japan soon would be straightened out.

CAMERA CAUSES TROUBLE.
A moving picture camera was at the bottom of the fliers' trouble. When Pangborn and Herndon took off from Khabarovsk, eastern Siberia, they had no permit to land in Japan. The United States Embassy here filed application for a permit in their behalf.
Japanese authorities announced they would consider the circumstances and not be technical. Discovery of the camera in the plane on the fliers' arrival here, however, gave the situation a serious aspect, especially in view of the fact Pangborn and Herndon were said to have flown over fortified areas.
The airmen arrived at Tachikawa at 4:15 p.m. yesterday, just an hour after the landing of Amy Johnson, British girl flier, from London. Miss Johnson and a mechanic, C. S. Humphries, made the flight from England in easy stages.

NUMEROUS OFFICIALS BUST.
The problem created by Pangborn's and Herndon's lack of a permit to land and the subsequent discovery of the camera in their plane was discussed by officials of the Home, Foreign, Navy, War and Communications Departments of the Japanese Government.

It was reported some officials favored leniency toward the American airmen, while others insisted they should be treated as spies. A decision was said to be made in view of a recent incident involving three United States naval fliers from the fleet off Chefoo.

Dairen newspapers asserted three United States naval airmen flew over fortifications and took photographs. The newspapers stated the United States admiral offered an explanation to the Japanese Consul at Tsingtau that the fliers, who had been cruising, had become lost.

The Japanese, the newspapers said, did not consider the explanation sufficient and the United States Consul at Dairen was reported to have asked Washington for instructions regarding the incident.

The investigation concerning Pangborn and Herndon probably will require several days before a decision is reached.

TOOK PHOTOGRAPHS.
Pangborn admitted taking photographs of the flight here from Khabarovsk, eastern Siberia, where he and his companion abandoned their attempt to break the globe-circling record made by Wiley Post and Harold Gatty.

Meanwhile, a reel of film taken from their camera was being developed by the authorities, some of whom were reported to favor leniency in the event it was proved the fliers had no intention of breaking the regulations.

NO REPORT TO WASHINGTON.
Washington, Aug. 7.—The State Department had no report to-day of international complications said to have arisen at Tokyo as a result of flights by United States aviators with cameras over Japanese fortifications and the arrival of Pangborn and Herndon at Tokyo without a permit.

Department officials said the absence of any report indicated either that United States representatives in Japan had smoothed out the matter or at least had not yet exhausted all their resources in behalf of the airmen.

EDITH CROSS AND WADE IN TENNIS FINAL
(Continued from Page 1)

MISS CROSS TAKES LEAD.
The second set opened with Miss Cross again taking the lead at 2-1, only to have Miss Campbell pass her to lead 2-1. Miss Cross then took the next three games, while Miss Campbell took the ninth at love. In the tenth game Miss Cross dropped only a single point, winning 6-4.

After dropping the first set at 6-2, Olive Wade fought with her back to the wall to take the final two sets at 6-3, 6-1. Marjorie Leeming, employing a deep chop shot, ran through the first set rather easily, dropping only two games. Miss Wade came right back in the second set to take an early lead on a break of service stance. Games then followed to the end of the set.

After the ten-minute rest, Miss Wade came back to take five of the first six games, and what turned out to be a safe lead. Miss Leeming took the seventh game, only to drop the eighth, after she had staved off defeat on four advantage points.

Girl Flier May Make Attempt At Atlantic Flight

Roosevelt Field, N.Y., Aug. 7.—Reports that Elmer Smith, nineteen-year-old girl flier, might attempt a transatlantic flight were current to-day.
"We father said he knew nothing of an intended flight," "However," he added, "she always has something up her sleeve."
Miss Smith is now in California.

GERMANY TO BUY MUCH COTTON FROM THE U.S.

Probably Will Get \$35,000,000 Worth on Three-year Credit Plan

Canadian Press
Berlin, Aug. 7.—Germany is negotiating through the United States Embassy here for the purchase of \$35,000,000 to \$40,000,000 worth of cotton from the United States Farm Board, it was learned to-day from a most reliable source.

The deal is for 600,000 bales, with an option on another 200,000 bales on the basis of three years' credit, payable by bills of exchange in dollars at 4½ per cent interest.

A Washington dispatch yesterday said the German Government had presented a proposal to the U. S. Farm Board for the purchase of stabilization cotton controlled by the latter. It was transmitted to the State Department at Washington by Ambassador Sackett at Berlin and turned over to the board for consideration. The board was in session when the cable was received. Later Chairman Stone said no announcement would be forthcoming until the board had had an opportunity to discuss the offer.

FORT WORTH FLIERS FAIL

Robbins-Jones Plane Forced Down at Edmonton on Proposed Long Refuelling Flight

Edmonton, Alta., Aug. 7.—Falling on their third attempt at a non-stop long distance flight, Reg Robbins and Harold J. Jones were forced to land in Edmonton at noon to-day. The fliers were attempting a flight from Fairbanks, Alaska, to Fort Worth, Texas, and had intended to refuel their machine in the air above Edmonton.

Trouble in starting motors of the refuel ship, a tri-motored machine, coupled with "impossible" flying conditions, prevented the success of their attempt.

They plan to leave Edmonton tomorrow on a non-stop flight to Fort Worth.

destination in that country had not yet been decided.

Asked if they would come back the same way, the colonel replied it was difficult to say. He pointed out it might be too late for summer weather conditions.

HELPS WITH DISHES.
The famous pair gave an interview on the veranda of the home of Dr. J. A. Urquhart, government medical officer, where they were guests. In the middle of the interview, Mrs. Urquhart could be heard washing the chinaware and Mrs. Lindbergh excused herself to go down to her kitchen.

Practically every resident of this northern post has shaken hands with the Lindberghs. Mrs. Lindbergh was smiling and pleasant words for everyone with whom they came into contact.

Both are attired in khaki riding breeches, although Mrs. Lindbergh was wearing a "kaki" overall when she climbed from the machine after arriving from Baker Lake, west of Hudson Bay.

GASOLINE PROVIDED.
The Lindbergh plane was refueled from the supply of the Royal Canadian Air Force cached here. Big drums of high test gasoline had been rolled to the beach for this purpose.

The machine's capacity is a little over 500 gallons. The average cruising speed is 135 miles an hour, but the Lindberghs said the trip from Baker Lake to Aklavik had been made at 105 miles an hour as great fuel economy could be effected in that manner.

Legion in temporarily curtailing activities in connection with the problems in order to throw all their weight behind the citizens' committee, is a clear indication of the rapidly growing support which may be expected from organizations of every kind.

The opinion expressed by the Canadian Legion, "that every organization and every citizen should pull their weight" in an emergency, which is almost as great as that of the "war years," is held by many others, and the force of helpers is increasing in consequence. "But," the committee declares, "there is room for every worker; the objective is a big one and a large force is necessary to ensure its attainment in a short time."

STEWART TO BE HEAD OF NEW P.E.I. CABINET
(Continued from Page 1)

Hon. B. W. LePage, Hon. J. F. McNeill, Hon. Horace Wright, Hon. Peter Sinclair and Hon. Russell Clark.

Besides the Premier the only member of the Liberal administration elected yesterday was Hon. J. F. McIntyre, Minister of Public Works. Thane A. Campbell, a former Attorney-General, who was defeated in last year's by-election in the Second District of Prince, was elected yesterday in the same constituency.

EX-MINISTERS ELECTED.
Four former governmental colleagues of Mr. Stewart were elected with him yesterday. They are Frank MacPhee, Minister of Public Works in the Stewart Government, which was defeated by the Liberals in 1927, A. F. Arsenault, Dr. W. J. P. MacMillan and L. L. Jenkins, who held no portfolio.

PROHIBITION LAY.
Prohibition, on which issue the Stewart administration was defeated four years ago, was not an important question in this year's contest, although Mr. Stewart and his followers charged the Lea administration with failure strictly, and impartially to enforce the prohibition law and pledged themselves to remedy the situation in that respect. In the June, 1927, election, the Conservatives appealed to the country on a policy of government control of the sale of liquor.

METHOD OF VOTING.
Yesterday the people voted to choose fifteen councillors and fifteen as-

emblymen from among sixty candidates. Only ratepayers with a property qualification of \$25 or over were permitted to vote for councillors, the system being a legacy of the bi-cameral, or two-chamber system in vogue before the Legislative Council was abolished. All voters, however, were able to cast ballots for assemblymen.

The candidate polling the greatest number of votes in any district was the assemblyman elected, and the one gaining third highest vote was the councillor elected. The second man on the defeated assemblyman and the fourth the defeated councillor.

THOSE ELECTED.
Candidates elected yesterday are: Prince County: First District—Thane A. Campbell, Liberal; A. Gallant, Liberal.

Second District—W. L. Dennis, Liberal; G. S. Sharp, Conservative. Third District—Thomas MacNutt, Conservative; A. F. Arsenault, Conservative.

Fourth District—Hon. W. M. Lea, Liberal; Heath Strong, Conservative. Fifth District—L. R. Allen, Liberal; Leonard MacNeill, Conservative.

Queen's County: First District—Walker MacKenzie, Conservative; Thomas Wignome, Conservative. Second District—L. L. Jenkins, Conservative; David Bethune, Conservative. Third District—J. A. Macdonald, Conservative; M. W. Wood, Conservative.

Fourth District—G. Bruce, Liberal; J. A. Campbell, Liberal. Fifth District—Dr. W. J. MacMillan, Conservative; W. A. Stewart, Conservative.

King's County: First District—H. D. MacLennan, Conservative; Dr. A. A. Macdonald, Conservative. Second District—J. F. McIntyre, Liberal; H. R. Cox, Liberal. Third District—H. F. MacPhee, Conservative. Fourth District—M. Arsenault, Liberal; J. A. Campbell, Liberal.

Fifth District—J. D. Stewart, Conservative; J. H. Macdonald, Conservative.

STEWART'S OPINION.
Mr. Stewart's former period as premier was from September 5, 1923, till August 12, 1927.

In commenting on the result of yesterday's election, Mr. Stewart gave it as his opinion the people's decision had been made chiefly on "the extravagance of the government, its failure to implement its 1927 election pledges, its lack of any platform or policy for the future and its hostile attitude toward the Bennett government, to which this province, in conjunction with the other maritime provinces, must look for a final settlement of subsidy claims under the terms of the Duncanson commission's report."

NORTHERN B.C. TRADE BOARDS MAKE REQUESTS

Burns Lake, B.C., Aug. 7.—The Associated Boards of Trade, in convention here, presided over by Vice-president A. M. Ruddy, and with F. A. Matheson of Prince Rupert acting as secretary, passed ten resolutions, making the following requests:

Extension of the farm demonstration stations in central British Columbia to include feeding and care of livestock; that the railway be asked to cut a reasonable number of ties, giving preference to actual settlers for the work; that the highway through central British Columbia be gravelled and straightened to enable tourists to travel with safety in wet weather; that the highway through to the Coast at Prince Rupert be completed at the earliest possible date; that the Provincial Government be asked to dispose of reverted lands to settlers at actual value, the distance from communication to be one of the factors in computing values; and that the \$2.50 minimum price be eliminated; that a game reserve be established in the White-sail country southward from Francois Lake; that construction of a Pacific railway outlet for the Peace country work be continued until the whole of the Bulkley and Nechako valleys are covered; and that an unemployment relief camp be established on the stretch of new road between Skeena Crossing and Usk, to connect up the highway at once to Terrace.

MONTREAL CANDIDATES

Montreal, Aug. 7.—To oppose Camille Houde, Conservative provincial leader, in the constituency he has represented in the Quebec Legislature for some years, the Liberals of St. Mary's, Montreal, yesterday evening chose Dr. Gaspard Pateux, dentist and grandson of Hon. Honore Mercier, who was Premier of the province from 1897 to 1899. Polling is set for August 24.

MACDONALD AND STIMSON HAVE A TALK

Rogart, Scotland, Aug. 7.—Premier Ramsay MacDonald and United States Secretary of State Henry L. Stimson sat together in the front room of the old farmhouse here where the United States statesman is spending his delayed vacation.

They had a long talk, but when Mr. MacDonald met correspondents after luncheon he reiterated that matters of state had not been discussed. This informal meeting he described as "simply a brief holiday."

NEW PLANS FOR UNEMPLOYMENT RELIEF IN U.S.

Washington, Aug. 7.—The United States Chamber of Commerce plans to lay before President Hoover by September 1 a comprehensive plan for unemployment relief.

Charles C. Brown, president of the chamber, and Julius Barnes, chairman of the board, conferred for nearly an hour with the chief executive yesterday, after which Brown said a preliminary survey indicated there would be "an appreciable increase in unemployment next winter."

The chamber, he said, was making a complete survey through its local organizations. A committee had been appointed to study the results of the survey and make concrete recommendations of methods of relief.

"Unless we do something at once," Brown said, "there will be more kinds of legislation for doles than Germany and England ever heard of."

RINFRET SPEAKS IN THREE RIVERS

Three Rivers, Que., Aug. 7.—Hon. Fernand Rinfret, M.P., former Liberal Secretary of State of Canada, yesterday evening supported Wilfrid Gariepy, K.C., Liberal candidate, in his second rally in the federal by-election in Three-Rivers-St. Maurice constituency, in which voting will take place next Monday. He devoted his speech to the Bennett budget, which he said was "against the working classes."

ARMED ROBBERS FAIL IN ATTACK

Steveston, B.C., Aug. 7.—Two armed bandits invaded the post office here and attempted to hold up A. A. Park, postmaster, early yesterday evening, but were frustrated when Parker dashed out of the door. The bandits then stole his automobile, which was parked in front of the building, and used it in their escape.

Man Is Beaten By Two Blind Men

New York, Aug. 7.—Two blind men, who said they had a grudge to settle, broke into a rooming house on East 34th Street here early to-day and attacked Wallace Kopelsky, sixty, with a chair until his skull was fractured. The blind men, Henry Keenlin, thirty-four, and Timothy Kelly, twenty-four, were arrested. Kelly said he was once a prize fighter in Boston and lost his sight as a result of his fight ring activities.

REPORTS FROM MEXICO TELL OF FLOOD DEATHS

Mexico City, Aug. 7.—Reports of flood deaths continued to arrive here to-day from four states in which large plots of rich farming land and numerous villages are under water.

Several lives were reported in press dispatches to have been lost at Huastamo, Michoacan, when the town was inundated after a cloudburst yesterday.

Seven are known to have perished at Tampuché, Tamaulipas, four at Tampico, and two at Coscomatepec, Vera Cruz.

CHEAP WHEAT FLOODS LIVERPOOL

Winnipeg, Aug. 7.—The market at Liverpool has continued to drop due to large shipments of Russian wheat, pressure of Danubian offerings and cheap wheat from other sources. Offerings at Liverpool were reported as low as forty-four cents a bushel. More than 5,000,000 bushels of wheat was cleared from Russian ports this week.

B.C. INSURANCE RULING IS MADE

Canadian Press
Vancouver, Aug. 7.—Holding that the Insurance Act of British Columbia applies to a person who acts for an insured person, as well as to representatives of insurance companies, Mr. Justice W. A. Macdonald, in the B.C. Supreme Court dismissed the appeal of Robert Adkin, West Nineteenth Avenue, here. The latter had been convicted in the Vancouver police court and fined \$150 by Magistrate F. McD. Kerr for acting as an insurance adjuster without having first applied for and obtained an insurance adjuster's license.

J. A. MacInnes, counsel for Adkin, argued his client was an adviser to insured, assisting the latter in determining their fire losses, but he was not an insurance adjuster, because he did not act for insurance companies.

The judge decided that under the circumstances Adkin must take out a license. The conviction was affirmed.

NEW EXPULSION MOVE IS GREAT TEST IN SPAIN

Committee Recommends Parliamentary Confiscate Property of All Religious Orders

Associated Press
Madrid, Aug. 7.—A measure incorporating in the new constitution of Spain an article expelling religious orders from the country and confiscating their wealth will be presented to the National Assembly by the Parliamentary commission.

The proposal would be embodied in article 14, dealing with the relations of church and state, and would abolish the official religion as well as terminate subsidies for confessional institutions.

The country has fifty Roman Catholic orders, with a membership of 45,000 monks and nuns. The church proper, plus its various orders, owns 5,000 pieces of property officially valued at 75,000,000 pesetas (about \$5,000,000). This figure excludes art treasures which intangibly are worth many millions of pesetas.

When news of the commission's decision was learned yesterday evening great excitement resulted. A group of Communists, which tried to parade through downtown streets, was charged by police and three were wounded. Their leaders were calling for a red revolution.

CARDINAL TO LEAD

Roman Catholic circle, informed of the menace to their religion, inaugurating action which was considered likely to have the most tremendous repercussion since the anti-religious disorders in May. They are believed to be awaiting the leadership of Cardinal Vidal y Barraquer of Tarragona, ranking ecclesiastical during the enforced absence of Cardinal Segura y Saenz. Churchmen contend the measure reflects the socialist complexion of the Assembly and cannot pass without one of the greatest parliamentary battles in Spanish history. They estimate 55 to 60 per cent of Spaniards are adherents of Roman Catholicism.

Many written protests signed by thousands of Spaniards after the church burnings and the government's decree establishing religious freedom were cited as evidence the action is unlikely to welcome the commission's proposal.

SEVERAL OUTBREAKS

Since the overthrow of the monarchy in April there have been several anti-Catholic disturbances. Scarcely a month has passed before the country was embroiled in a series of outbreaks which cost millions of dollars in church property, caused monks and nuns to flee for their lives, and led to protests from the Vatican.

Subsequently, Cardinal Segura was exiled to France for alleged interference in political matters, and many of his followers chose voluntary banishment. The Provisional Government of the Assembly, that the state should have no official religion, that Catholicism should not be given pre-ferential over other faiths, and that the people should be free to worship according to the dictates of their consciences.

Co-operatives Break With Farm Board

Chicago, Aug. 7.—A threatened rift between northwest grain co-operatives and the Federal Farm Board over the expansion policies on the Farm Board-sponsored Farmers' National Grain Corporation was disclosed to-day by officers of the Northwest Grain Association.

W. T. Kumst, general manager of the Northwest Association, said at Minneapolis to-day that an open break between the co-operatives and the farm board was impending, but A. L. Boeg, of Baltic, S.D., president of the association, in conference here with officials of the Farmers' National Grain Corporation, said the situation had not gone beyond the formal protest against the Farmers' National activities.

Mr. Berg stopped here en route from Washington at which the protests were formally made, and discussed what he said were "matters of business policy" with C. E. Huff, president of Farmers' National. Neither he nor Mr. Huff, however, would disclose the result of the meeting.

STEEL TRADE DECLINES

Pittsburg, Aug. 7.—Iron Age to-day says: "A decline in pig iron production to the lowest ebb since 1921 following the disappointing revelation of iron and steel company reports for the second quarter, has dampened reviving hopes for business betterments and accentuated concern over negative market factors in general. With half of the country's automobile capacity idle, with the Ensley and Pittsburg rail mills shut down and with virtually no branch of steel industry showing any improvement, with declines reported at Coalingtown, Cleveland, Pittsburg and Buffalo, the average for the country has receded from 32 to 30 per cent of capacity."

PREMIER NOT QUITTING

Edmonton, Aug. 7.—"The statement is very interesting, but so far as I or anyone else in the government or the U.F.A. organization is concerned, it will be looked on and considered as another effort of someone's imagination," stated Hon. George Ross, acting Premier of Alberta, when queried on a dispatch from Lethbridge to the effect that Hon. J. E. Brownie soon would retire from the premiership.

NOW GO AFTER THE BUSINESS

CANADA AND AUSTRALIA HAVE proclaimed the new trade treaty in effect. The arrangement gives a wide variety of Canadian products a preferred position in the Australian market, and constitutes a basis for general optimism concerning the future development of trade between these two British countries. Canadian automobiles, newsprint, timber and canned salmon have been given special consideration, but when Canadian exporters have had time to make their goods better known in the Australian market there should be also a substantial increase in the volume of sales of a wide variety of other products.

It has been estimated that the value of United States exports will suffer by about twenty-five million dollars, but there are so many opportunities which have been opened to Canadian exporters by this new treaty that its full ultimate effect cannot be estimated closely. Of the 433 items which make up the Australian tariff schedules, there are 415 on which preference has been granted. Until there have been trial shipments of many different kinds of goods it will be difficult to judge the relative importance of the generous preference on the items mentioned above as compared with the preference resulting from opening the whole market to Canadian products.

In the Australian fiscal year of 1929-30, the current monthly letter of the Royal Bank of Canada points out, the total imports of newsprint amounted to about \$15,000,000, of which \$4,200,000 came from Canada. In the Australian statistics the chief source mentioned for the balance was Great Britain, but the real area of origin was probably the Scandinavian Peninsula. Under the treaty, Canadian newsprint will enter free of duty and the general tariff on this item will amount to nearly \$20 per ton.

Australian imports of salmon amounted to \$4,000,000 in 1930, and of this amount \$2,500,000 came from Canada. The old preference in favor of Canada amounted to the difference between the general rate, five cents per pound, and the special rate of two cents per pound. The new preference is the differential between eight cents per pound and two cents per pound. This preference is twice that granted in former years.

Automobile chassis to a value of nearly \$30,000,000 were imported, of which approximately \$4,000,000 worth came from Canada and \$19,000,000 worth from the United States. The new rates vary from fifteen per cent on unassembled chassis, to thirty-five per cent on assembled chassis, while the general tariff varies from thirty-two and one-half to forty-five per cent. Many types of Canadian timber receive a preference of \$5 per thousand feet where there has been no preference in the past. The total value of Australian imports of wood and wood products from the United States has been in excess of \$10,000,000.

The report of the Dominion Bureau of Statistics for the fiscal year of 1929-30, shows that Canada exported to Australia, confectionery, rubber manufactures, fish, furs, textiles (including silk, cotton and felt), gloves and mitts, socks and stockings, oilcloths, paper board, paper; wall, writing and wrapping paper; books, iron pipe and tubing, iron, farm implements, razors, nails, needles and pins, electric apparatus, asbestos, coal, medical preparations, soda and compounds, and other chemicals, stationery and musical instruments. There were exports to a value of more than \$10,000 of each of these items. On almost every item mentioned the preference in favor of Canadian goods is now larger than it was at the time these exports were made.

It is essential, of course, that this treaty shall be made no less attractive to Australia than it is to Canada. People cannot sell unless they buy, and Canada can not hope to continue to receive these benefits unless Canadian purchases of Australian goods are increased. Under normal circumstances the initiative in trade rests with the seller; it is important that Australia make her products better known in Canada and pursue a generally vigorous sales policy. In this instance, however, the major benefits which will result from the treaty are those which have been granted to Canada, and under these circumstances, Canadians can well afford to give full co-operation to those Australians who endeavor to find a market in this country.

FLIGHT'S BOGEYMAN

JUST WHEN WE ORDINARY MORTALS are expanding our chests in the proud satisfaction that we are living in an age when it is possible to fly with comparative safety at anything up to 200 miles an hour, along come the experts of the British Medical Association to tell us that the age of flight on which we are entering will hold at least one menace to civilization that will counterbalance many of its boons.

We are told that the dangers of the airship and the airplane as disease-carriers have not been fully investigated. One speaker at the recent gathering of the association pointed out that journeys from distant infected countries can be made by air well within the incubation periods of the major infectious diseases. Australia, for instance, maintains a happy immunity from plague and cholera because the traveler reaching her by sea from the nearest points where they are prevalent is bound, if he is infected, to reveal the fact in the course of the voyage. If he arrives by air he may easily establish many contacts before the danger he imports is detected. Moreover, it is

feared that not only man but the mosquito may take advantage of the new mode of travel. Sir Malcolm Watson drew a gloomy picture of the mosquito that carries yellow fever boarding an airplane from West Africa, where the disease is endemic, and spreading it like wildfire among the peoples of East Africa, where it is as yet unknown. In that event, he considers, it would inevitably carry devastation throughout Asia, with results that might shake our civilization to the ground.

Naturally, it is well that the men of science put us on our guard—although it may be some time before Victoria need worry on this score. If the risk is judged to be as high as they put it, however, measures to secure the safety of the rest of the world, through the quarantine of travelers from infected areas, no doubt will have to take precedence even over speed in travel.

Meanwhile we hope Miss Amy Johnson, the brilliant young British flier who has just arrived in Tokyo from London, and Colonel and Mrs. Charles Lindbergh, who are waiting at Akilavik for favorable conditions in order to continue their flight to the Orient, will be careful to watch that their machines carry none of the diminutive stowaways against which the distinguished medics have warned us.

THE 20,000 AT LOOS

THOSE WHO WERE PRESENT LAST Tuesday when Great Britain officially dedicated the great memorial at Loos to her 20,000 unidentified dead, who fell in the memorable battle in that sector of the western front, must have been impressively reminded of the frightful and deadly nature of modern warfare.

It must have been a painful ordeal, too, for Mr. Rudyard Kipling as he delivered the principal speech at this moving ceremony. For his own son was one of the 20,000 who were merely described as "missing in action" to account for their departure to the other side of the valley. We can be sure that his tribute to these gallant men came straight from the heart.

It will be recalled, of course, that the 20,000 unidentified British soldiers made up only a small part of the awful casualty list of the battle of Loos, where only minor advantages were gained at a terrible cost. But these were simply the men whose remains were unidentifiable—the men who had been literally blown to bits.

This memorial at Loos and others on the old western front should serve to remind all those who visit the battlefields, all those to whom the Great War came directly home, that the most effective monument to the memory of the men who made the supreme sacrifice is an inflexible resolve to make another such disaster impossible.

A GOOD ONE

THERE IS SOMETHING RATHER amusing in The Toronto Financial Post's fear lest the Beauharnois power project should come under public ownership. It thinks that unless it remains under private control somebody may graft on it!

The Conservative Ottawa Journal says "Punch" had better look to its laurels, "for if anything more ridiculously and uproariously funny than this has been perpetrated during the past decade, we unfortunately have missed it." The Journal proceeds:

"Public ownership may often involve incompetence, has sometimes involved petty graft, but we have yet to hear of people charged with public ownership throwing about millions among parties and politicians as though they were old Intercolonial Railway passes."

Graft? Who can point to a dollar of graft in connection with Canada's two great public ownership enterprises—the Canadian National Railways and Ontario's Hydro?

Hydro was promoted and organized by Sir Adam Beck. Did The Financial Post ever hear of his putting up a million dollars for political parties, saddling the cost upon the power users of Ontario? Or did it ever hear of Mr. D. B. Hanna or Sir Henry Thornton forming a "nuisance" corporation, and using it to extract a million dollars from the Canadian National Railways, and, incidentally, from the Canadian tax payers?

Our eastern contemporary, which, by the way, has not identified itself with that section of the Conservative press that has been spoon-fed with anti-Canadian National propaganda, advises The Financial Post to confine itself to subjects with which it is supposed to be familiar—"these do not include public affairs that call for an informed political philosophy."

WHAT OTHER PAPERS SAY

MAY HAVE NEEDED IT
The Toronto Globe

As a possible explanation of the fact that the Orange Grand Lodge, which recently gathered in Hamilton, abandoned its much-heralded determination to rebuke Hon. G. H. Ferguson for having, while in Rome, received the Pope's blessing, the Stratford Beacon-Herald suggests that the lodge, after due consideration, came to the conclusion "that probably Br'er Howard sadly needed it."

OIL-ENGINED AIR LINERS
The Ottawa Citizen

Great strides are being made with aircraft this year, but when the flying machines set out across the Atlantic ocean, with heavily laden gas tanks, they seem to be still far from entering the commercial field. It is believed that the Diesel engine, however, is approaching the stage where it will displace this gasoline motor for long distances.

Diesel engines are considerably heavier than the present design of aircraft engine, but the Diesel's weight is coming down. A gasoline engine may weigh about two pounds per horse power, as against three and one-half pounds for the Diesel; but a British engine is at present being experimented with, to run with heavy oil, which will weigh only about two and one-half pounds per horse power.

The Diesel engine has an advantage in fuel weight. The Diesel engine consumes 45 pounds of fuel per horse power, as compared with 4 pounds for the Diesel. Heavy oil, as it is termed, is much cheaper than gasoline. The fuel cost on oil-engined aircraft may be only about one-third the cost of gasoline.

The heavy oil is also safer. There are other advantages claimed for the oil engine, including simplicity of design, with consequent less liability of failure. Before another year, air liners for long distance commercial flying may be attracting more practical interest.

A THOUGHT

But if ye bite and devour one another, take heed that ye be not consumed one of another.—Galatians 5:15.

The avicious man is kind to no person, but he is most unkind to himself.—John Kyrie.

Loose Ends

I learn something about Victoria—in a distant place—from an expected source—and, it is not pleasant to hear.

By H. R. W.

THE OTHER day I was riding over the world's worst road with the world's best driver. He is Eric Cottrell, who runs an excellent garage at Hope, B.C., where you can get your car serviced the next time you drive past that way—a free advertisement, not published or displayed by the Liquor Control Board or the Government of British Columbia. It is of no public interest, I suppose, that the worst road was not intended for anything wider than a pack horse, and that I measured the distance between the outer edge of the tires and a thousand-foot drop into eternity, to find that this margin was precisely an inch and three-quarters. I, in of no importance in an historic sense, that there is more exercise riding over the world's worst road in the back of a little truck for twenty-three miles than there is in walking twice the distance. Nor do I think that the public greatly care to hear that I was hurled high in the air, rolled on the bottom of the truck, thrown headlong against the sides and almost tipped out sideways into the Sumallo River, which runs through the forest just above the road below me. The public, I have no doubt, would little mark and soon forget, as Lincoln said, if the truck and its precious cargo had gone completely through the ridge instead of hanging, somehow, by its rear end, in the wheels dangling down towards the water. But there was something interesting in that wild six-hour drive over the twenty-three miles of trail built in gold rush days by the Royal Engineers.

IT WAS interesting, I mean, to hear the views of the tough-looking gentleman who jolted and heaved with me down the seventeen-mile hill, while the tires of Eric Cottrell's unhappy truck were just an inch and three-quarters from eternity. Said this gentleman whom we had picked up on the trail: "Say, you folks down in Victoria, don't know anything about hard times, do you? People up here live. You play your golf and drink your tea and as for the rest of it, it's just too bad, that's all." Said another tough-looking gentleman who had just come in from the wilderness of Cambie Creek: "Way, then, people down in Victoria think the world ends at the far side of the Causeway." Now these, I thought, were serious allegations which show you, rather pointedly, the reputation we have been getting for ourselves in other parts of British Columbia, on the whole, for speaking as a typical Victorian. I think it is a just reputation.

WE DON'T know how the rest of this province lives, and we care less. Even though it is unjust, it is no wonder that people like my tough-looking friends of the Seventeen-mile Hill think of us as tea-drinkers, golf players and world of work and working men. We don't know, I mean, that while we complain of hard times now, there are always hard times for that part of the population which has the courage to remain outside the cities. For this, these times are just so much harder.

YOU WOULD never hear, unless you happened to pass that way, of old Belgium, so called because he came from a cabin on Roche Creek, a little log cabin with eleven potato plants growing beside it, at the base of the Three Brothers. While we have been drinking tea and playing golf (or, at least, so they imagine up there) old Belgium has been digging into the mountain-side for thirty years. He has bored 1,000 feet of tunnel into the mountain. He has taken a huge pile of rock out of it, and he says he has the makings of a great mine. But he is poor, his prices are hopelessly low, and he has nothing so far but his ore and his long hole in the hill. Still, he bodes of the coming of his day. He has a cabin with his eleven potato plants, and he has a horse. Still they hear him riding cheerfully along the trail high above Roche River, talking incessantly to his horse in French. Still he hopes to make his pile and retire—and he is close to seventy.

YOU WOULDN'T hear, either (unless you stopped your golf playing and tea drinking for a few days, and marched into the wilderness) of old Bill Robinson, of Sumallo River. Old Bill Robinson's cabin is at the end of the world's worst road and beside it is what I suppose is the most isolated garden in the world. By the time the morning sun is up, Bill Robinson is the famous Sumallo grower of his own vegetables in a valley between the mountains not fifty yards wide. No, it is not thirty yards wide. Still, he has some good potatoes, some sweet corn, green peas, onions and carrots. In another little patch there are five pansy plants, seven petunias and three sweet Williams. Within ten feet of them the sheer sides of the Coast Mountains tower up to the sky and the Sumallo roars its rocky way to the sea.

While we are drinking tea and playing golf all next winter Bill Robinson will tend his trap lines and read old magazines in his cabin on the Sumallo with twenty-three miles of snow, six feet deep, between him and another human being.

I SHALL ALSO pause sometimes in the middle of my golf playing and tea drinking to think of old Pinch McGuire, the trapper, who is so well off that he has three houses all his own. All of them are made of logs, two have doors and the third has only a roof. They are the only mark of humanity for fifty miles along the trail and the forest, as if jealous of their presence, is marching relentlessly upon them until they are almost hidden by young cedar trees and old

BURN KIRK'S COAL

"DOES LAST LONGER"

devils' club bushes. You find traces of Pinch McGuire all along the trail, however—little shelters of bows and sticks where his traps will be placed next winter, three days' hard going from anywhere.

I DO NOT wonder that these people have a curious opinion of us. I don't suppose, either, that we shall ever convince them of the truth of this matter or that we shall even convince ourselves. And the truth of this matter, as you can easily prove by personal observation, is that the few people of the Coast Mountains, old Belgium with his hole in the hill, Bill Robinson with his six petunias beside the Sumallo, Pinch McGuire and his trap line, are getting a far greater kick out of life, hard times and all, than we are.

THE VICTORIA DAILY TIMES
AUGUST 7, 1906

From The Times Files

Cheese-making on a commercial basis has at last been started in British Columbia. Langley Prairie has the honor of being the first location of the new industry.

The special prize list for the fall fair to be held in Victoria, September 25 to 29, is increasing in volume. Everything points to it being the biggest in the history of the British Columbia Agricultural Association.

Everyone is riding in a tally-ho these times. The present rate of 25 cents has caused a big boom in the number "seeing Victoria" in this way.

Preparations are well in hand for the thirteenth annual regatta of the J.B. A.A. to be held on Saturday next.

Cabinet Committee Will Study Conference Plan of Fraser Valley Reeves

The provincial government yesterday appointed Hon. W. A. McKenzie, Hon. J. W. Jones and Hon. William Atkinson as a special committee to consider the advisability of calling a conference of business and citizens' organizations to organize a public drive for support of products of British Columbia origin. Organization of a three-year plan to develop increased public support for local industries, as recommended to the government by Mr. McKenzie and the Fraser Valley Reeves' Association, had been referred to the special committee for study.

Premier Tominé afterwards announced that the special committee was vested with power to add to its numbers and consult all persons capable of aiding in a detailed study of the problem of developing a spirit of self-help among the citizens. If sufficient grounds were found for calling an economic conference, to study means of increasing consumption of British Columbia goods or the course of business, the special committee has power to summon such a gathering.

Premier Tominé pointed out that the report of the committee would be non-political. It would be designed to make the most of all opportunities available in British Columbia, in the interests of the people as a whole. British Columbia was the first province in Canada to undertake such an investigation, he commented.

The Board of Governors of the University of British Columbia suggested to Hon. William Atkinson, Minister of Agriculture, that a conference on agricultural work be called to be attended by representatives of the Federal and Provincial Departments of Agriculture and the university's faculty of agriculture, with a view to eliminating duplication of effort. The request has been forwarded to Ottawa.

KAMLOOPS GIRL WEDS VICTORIAN

Miss Jean Wilson Becomes
Bride of Hugh Alan Maclean,
Barrister

Local friends of the bridegroom will be interested in the marriage which took place in St. Andrew's Presbyterian Church, Kamloops, on Wednesday evening, when Margaret Jean, only daughter of Mr. Charles J. Wilson and the late Mrs. Wilson, became the bride of Mr. Hugh Alan Maclean, Vancouver barrister, elder son of Mr. H. A. Maclean, K.C., and Mrs. Maclean, of Victoria. The ceremony was performed by Rev. Gardner Dickey, assisted by Rev. W. A. Wyllie.

The church was artistically decorated by friends of the bride with masses of green banking the chancel, and the color scheme of blue and pink was carried out with a profusion of flowers. The bride, who was given in marriage by her father, wore a Lamballe model of cream Chantilly lace with two-pointed tiers below the waist falling in long lines to a small train at the back. A bolero jacket with elbow-length sleeves and a little lace cap trimmed with orange blossoms completed the ensemble. She carried a Colonial bouquet of pink roses, lily of the valley and maidenhair fern.

Mrs. Donald Dalgleish, the bride's only attendant, wore a princess gown of deep blue chiffon, the skirt flaring into pleated ruffles. Her silk velvet hat and shoes were of the same color, and she carried a sheaf of blush pink gladioli, blue delphinium and lemon carnations. The two little flower girls, Marjory and Lorene Wiloughby, small daughters of Dr. and Mrs. C. J. M. Wiloughby, were dressed alike in pink silk organdy, with blue bandeaux, and each carried an old-fashioned nosegay of cream sweet peas, blue delphiniums and pink roses.

Mr. Donald Maclean of Kelowna attended his brother as best man, and Mrs. C. J. M. Wiloughby, Dr. and Mrs. Dalgleish were the ushers. During the signing of the register, Mr. William Docker sang "I Love You Truly."

CHAPTER PLANS ANNUAL APPEAL ON HEATHER DAY

Final arrangements were made for Heather Day at the home of the St. James and Lady Douglas Chapter, I.O.D.E. yesterday afternoon, at which Mrs. Walter Burton, the convener of the sale of heather on August 26, asked for the assistance of every member of the chapter, either in preparing or selling the heather. Members are asked to be at Municipal headquarters on Tuesday, August 25, either in the morning or afternoon, to assist in the preparations of the boxes. Mrs. Burton, 815 St. Charles Street, will be grateful for offers of help.

A letter of congratulation was voted to be sent to Mr. E. H. Wagner, who has been visiting in Victoria upon her well-deserved vacation as "best citizen" during the Confederation festivities. Mrs. Walker reported having attended the opening of the camp for the Children Aid Home, also having decorated the Cross of Sacrifice in Ross Bay Cemetery during July. Mrs. McMillan brought in a gratifying report of the Girl Guides' activities, and successful garden party.

Mr. and Mrs. H. R. Wagner, of San Marino, who have been visiting in Victoria, have left for points up the Island prior to returning to their home in California.

Miss Gertrude Hickey of Ontario Street and Miss Edith Severs returned yesterday this morning aboard the liner Ruth Alexander after a vacation spent in southern California.

Mr. and Mrs. J. W. Benning, Beresford Road, who have been spending the last week at Cowichan Lake, returned today to their home on Esquimalt Harbor.

Mr. W. V. Pipworth, city clerk of Esquimalt, B.C., is spending a holiday in the city, accompanied by his son Peter, and are the guests of Rev. and Mrs. W. A. Alexander, 39 Howe Street.

Mr. Charles S. Fraser has returned to Victoria after a month's absence, during which he attended the Canadian Scottish training camp at Sarnia, Alberta, and visited Calgary and Edmonton on business.

Mr. J. R. Colley, ex-C.O.A. for Fraser-Cariboo riding, arrived in the city yesterday from Kamloops, accompanied by Mrs. Colley. They will holiday here for two weeks, the guests of Mr. and Mrs. R. Tennant, Superior Street.

Miss Dorothy Bradshaw, of Ottawa; Miss Betty Lord, of Vancouver; and Miss Marjorie Pierce, of Victoria, are visiting with Miss Margaret Mosan at the country home of her parents, Mr. and Mrs. John A. Mosan, "Rockery Nook," Brentwood.

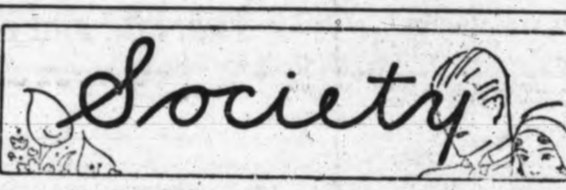

Mr. and Mrs. E. B. Scutt of Los Angeles, were in Victoria today en route to Alaska. They arrived from California this morning aboard the Ruth Alexander and will sail this evening for the north on the Dorothy Alexander.

Mrs. T. Baylis, wife of Alderman Baylis, Moose Jaw, Sask., who has been the guest of Mr. and Mrs. Swire Mitchell, Oak Bay, is now staying with Miss Shepherd, Moss Street, before leaving for Vancouver and Portland, Ore.

ART STUDENT'S SHADY HAT

This was the sombrero Senorita Inez Ramirez, above, of Puerto Armales, Panama, wore when she arrived at San Francisco aboard the S. S. Perla to attend art school. There's art in these fifty-gallon Inca-type hats, the senorita says, and that's not all. What chance has the glaring sun to do its blistering through this kind of protection?

Mr. and Mrs. E. H. M. Foot, of Uplands, are spending the month of August at Deep Cove.

Mr. Graham Strickland and Irving Harris of Ocean Falls, are old acquaintances in Victoria.

Dr. D. K. Moriarty, Mrs. Moriarty, Mrs. Shakes and Miss Shakes of Wrangell, Alaska, are spending a few days in the city.

Mr. Clarence Elliott, the eminent authority on rock gardening, and Mrs. England, who are touring Canada, are guests at The Angela while in Victoria.

Mr. and Mrs. L. S. V. York, of York House, Fort Street, have left on a week's motor trip up the Island as far as Campbell River.

Miss May Thompson of Vancouver arrived in Victoria this afternoon and will spend the week-end with friends here.

Mr. and Mrs. Alec Martin, of Portland, are visiting in Victoria as the guests of Mrs. Martin's mother, Mrs. Mackay, Pakington Street.

Mrs. A. W. Miller of Victoria with her three children is the guest for a few days of her parents, Mr. and Mrs. George Bell, Vancouver.

Mrs. W. B. Fraser and family have removed from Vancouver Street and have taken up their residence in their new home, 1302 Rockland Avenue.

Mrs. J. Furiak of Kamloops arrived in Victoria on Monday to visit her parents, Mr. and Mrs. S. Rogers, Quana Street.

Miss Marion Robertson came over from Vancouver Wednesday to spend a month here as the guest of her uncle and aunt, Senator and Mrs. G. H. Barnard, "Dupuis," Rockland Avenue.

Rev. W. A. and Mrs. Alexander of Port Alberni are visiting in the city until the end of August. They are accompanied by the latter's sister, Miss Sherman.

Mr. and Mrs. H. R. Wagner, of San Marino, who have been visiting in Victoria, have left for points up the Island prior to returning to their home in California.

Miss Gertrude Hickey of Ontario Street and Miss Edith Severs returned yesterday this morning aboard the liner Ruth Alexander after a vacation spent in southern California.

DAUGHTER OF PASTOR BRIDE

Miss Marjorie Guy, R.N., Married to Dr. Kenneth L. Craig of Vancouver

A marriage for much interest in Vancouver as well as Victoria was solemnized at Oak Bay United Church at 7:30 o'clock yesterday evening, when Miss Marjorie Guy, R.N., only daughter of Rev. W. A. Guy, pastor of the church, and Mrs. Guy, became the bride of Dr. Kenneth L. Craig of Vancouver, youngest son of Mr. and Mrs. C. G. Craig of Olds, Alberta. The bride is a graduate of the Vancouver General Hospital, where she has been night supervisor of the operating room and emergency ward for the last two years, prior to that being in charge of the nursing staff of the new hospital in Nanaimo.

Rev. W. A. Guy officiated at the ceremony. The bride, who was given in marriage by her brother, Mr. Jordan Guy, made a charming picture in her ankle-length gown of periwinkle blue georgette, worn with a coat of the material, and a becoming picture hat of periwinkle blue Bakko straw, trimmed with a single pink rose at the back. She carried a bouquet of pink roses.

Little Miss Phyllis Dawe was the only attendant, wearing a dainty Kate Greenaway frock of pale pink nylon, with a wreath of French flowers in her hair. She carried a golden basket, from which she scattered rose-petals in the path of the bride and groom as they left the church. The ushers were Mr. Norman Roy of Nanaimo and Mr. G. A. Gibbard. Only relatives and a few intimate friends of the principles witnessed the ceremony. During the signing of the register Miss Georgina Tapley sang "Devotion."

After the ceremony a small reception was held at the home of the bride's parents, Capt. F. B. Wright proposed the health of the bride, to which Dr. Lavelle Leason of Vancouver responded. Later Dr. and Mrs. Craig left on a motor trip to Banff and Lake Louise, and will also visit the bridegroom's parents at Olds, Alta., prior to returning via the Yellowknife Park to Vancouver, where they will make their home.

HUNDREDS SEE GLADIOLI SHOW

Over 2,000 Blooms at Cridge Memorial Hall Yesterday; Ladies' Guild Sponsors

Over 2,000 exquisite gladioli, of every conceivable color and variety, the product and gift of C. S. McTavish's nurseries at Breed's Cross Road, transformed the Cridge Memorial Hall into a beautiful bower of blossoms yesterday afternoon, the lovely sight being witnessed by hundreds of flower-lovers.

FOR HALL FUNDS The delightful affair was arranged by the Ladies' Guild of the Church of Our Lord, Free Church of England, in aid of the hall fund, which benefited substantially by the sale of the blooms at the close of the afternoon. Mrs. E. Heddle, the president, acted as general convenor, and was assisted in the artistic arrangement of the many flowers by Miss Helmecken, Mrs. H. C. MacCallum and Messrs. McTavish and Alex. Watson. Mr. G. Turner was in charge of the tickets, and Mr. J. Turner served under the direction of Mrs. Peter Shandley, Mrs. Arthur Tobin, Mrs. Monahan and Mrs. G. Turner.

Baskets of biologically won warm acclaim from those who attended the event. In this section a majestic basket of Golden Dream, a Canadian variety of marvelous coloring was outstanding, as was another basket of Crimson Glory, a United States species, with which gladioli of Japanese plum, along with dogwood roses, were shown to advantage.

Small varieties of L'Innocence and burned orange-colored Hermine, were displayed effectively in a small jade-colored bowl.

STIPPLED EFFECT Stippled lavender-rose Rosemary and small primulas in low bowls won general admiration.

Glory, an orange-red butterfly gladiolus, added further to the color of the hall. Many specimens of this were on view, tastefully arranged in wild huckleberry setting. Roseandra, Gypsophila and shrimp-colored primulas were particularly beautiful.

Carmelite, a "smoky" gladiolus of a pink and rose admixture, drew much interest.

GERMAN VARIETIES Among the German gladioli were the pure white, large Albatross; the Commander Kook, the largest and best red gladiolus produced; the Wurtembergin, a big scarlet bloom with a cream blotch in the throat (one of the blooms measured seven inches across); the Coryphe; the small china-blue Ave Maria, with red and mauve-striped throat; Fritz's Triumph, brought out about ten years ago, which is a bright salmon-orange and still a great favorite; and Plutifer's mauve-pink Peach Blossom.

Other favorites were William Pitts Memory, white with a faint lemon tinge; the French Standard, another white gladiolus with a red blotch in the throat; the American Joerg's White, a very large and prolific bloomer; and the two Scottish varieties, Kyle, a rosy lilac in color, very reminiscent of the orchid tones, and Duchess of York, a decorative rose-colored bloom with mauve frill and white throat. A great basket of apricot-colored Polka and bright red Vesuvius mixed with Japanese prune and asparagus fern was also shown to advantage.

Members of the Victoria Business and Professional-Women's Club have been invited to join the Port Angeles Club in an international picnic on Sunday, Victoria members and their friends will leave on the Ss. Iroquois on Sunday morning at 10:1 o'clock from the C.P.R. wharf, returning from Port Angeles at 7 o'clock in the evening on the Olympic. Luncheon will be served in Port Angeles at a small charge. Members may obtain their tickets and immigration forms from Mrs. E. G. Maynard, 643 Yates Street, at the steamship office or at the wharf.

Big Delegation Asks Council For Work; Property Owners Distressed

Reeve Crouch Says \$100,000 Spent in Saanich For Relief; Big Deficit Assured

E. E. Bell and twenty-five other unemployed yesterday evening waited on the Saanich Council and appealed for immediate action by the municipality to relieve the situation. Reeve Crouch told the delegation Saanich had expended nearly \$100,000 on relief, a big deficit was certain at the year's end and the problem was entirely beyond the resources of the taxpayers. "Relief is a matter for the government, but no men or their families shall be allowed to starve. No municipality has done more than Saanich to aid the unemployed," he said.

H. Kroeger said hardship existed among Saanich residents owning property, as well as among the destitute. "It is not right that such men should be required to divest themselves of their property before they can qualify for assistance," he said. He termed the federal scheme of aid for single men "interment camps under military discipline, abhorrent to the citizens, similar to the Russian system of forced labor."

REFUSED CITY AID

Mrs. A. Campbell, a property owner in Saanich, speaking for the Workers' Alliance, told of living in the city on relief until it was discovered she had land in Saanich. "I was told to go to Saanich and eat grass," she said. "The Friendly Help is a fizzle," she said.

"People who want to work should have an opportunity to earn their daily bread. My potatoes are unseeded; they will have to stay unseeded, because I have no seed," she said. "I have no money to buy seed. I have no money to buy food. I have no money to buy anything."

"If the government has the money for military forces, to start another war, they should have enough to give workless men employment," said Mrs. Campbell, asserting fathers were stealing to maintain their families.

Mr. Kroeger said: "We do not want work of the kind provided, but we realize we must make the best of what we can get."

"PLEASANT CONTRAST" Mr. Bell thanked the council for the hearing accorded, said the delegation were aware of the situation and offered the aid of the unemployed in putting pressure on the government. Mr. Kroeger said the attitude of the Saanich Council "was in very pleasant contrast to the reception given us in other places."

Councillor Hagan asked for details regarding the alleged stealings and was told by Mrs. Campbell that vegetables and other produce was being regularly stolen. "I know of cases, but I would never tell on them," she asserted. "I thank you gentlemen because you are gentlemen, that is more than we can say for the Victoria City Council," she said. Mrs. Campbell added "non-contributory."

A number of men attempted to air personal grievances, but the chairman intervened with reiterated thanks for the hearing accorded and marshaled the delegation out of the council chamber.

SAANICH MUSKRATS MAY BE KILLED AT ANY TIME OF YEAR

Saanich farmers will be allowed to kill muskrats at any time of the year, provided they first take out permits. A Bryan Williams, game commissioner, yesterday evening notified the Saanich Council of the concession, commenting "It has been a great regret to me that muskrats should ever have been allowed to get into the Saanich district."

Elimination Sprint At Super Walkathon

Feature of the Super Walkathon this evening will be another three-hour dance sprint, commencing at 8.30 o'clock. There are only six couples left in this endurance contest, which is now in its nine hundred and thirtieth hour of continuous motion. The rules governing the sprint, will be much the same as the previous sprint, except that they will be more stringent. There will be only five minutes out of three hours for medical attention or resting, and the couples must retain a dancing position at all times. A midnight frolic will be held.

COLISEUM THEATRE

Crowded houses have greeted the excellent cast in "Lord Richard in the Pantry" at the Coliseum this week and it promises to break all records for patronage. Victorians are not slow in appreciating and seeing their stage favorites in screen roles, notably in the case of Richard Cooper, the clever "silly ass" comedian, in the title role and Leo Sheffield in his perfect and ripe portrayal of the outwardly imperturbable butler who is nevertheless much worried at the antics of his young and irresponsible master. This fine artist will be remembered here in the Devoyle Carte Opera Company, his outstanding performance being that of "Pooh Bah" in "The Mikado."

CAPITOL THEATRE

Charlie Ruggles, the droll comedian of "Young Man of Manhattan," "Her Wedding Night," and other successful talkies, is to be seen at the Capitol Theatre in his first starring picture, "The Girl Habit."

In this picture, which was made at Paramount's New York studio, Ruggles is definitely launched by his sponsors into a career of stardom which will carry him to the forefront of screen personalities.

Ruggles has well merited the distinction of stardom. His career has been featured by hard work and painstaking care. At a youthful age he began his stage career in San Francisco. It was not long before he was on the road. Among his biggest successes were "Battling Butler" and "Queen High."

ROYAL BOOKS MANY SHOWS

Rich Dramatic Season in Victoria Promised By Manager Denham

One of the richest dramatic seasons of several years is forecast in the list of visiting companies released by Clifford Denham, manager of the Royal Victoria Theatre. This indicates that at least eight fixtures, three of which alone will account for six weeks' entertainment for local theatregoers, have already been booked, while others will certainly be added during the course of the season.

Chief interest undoubtedly centres in the engagement of Sir Barry Jackson and the Birmingham Repertory Theatre Company, the Carl Rosa Opera Company and the English Civic Opera Company, each of which will remain for two weeks.

One of the best known in the Empire, and on the occasion of this its first visit to Canada, may expect capacity houses all along the line. In addition to the fixtures already booked, Mr. Denham announces that there is every possibility that the Stratford-on-Avon Repertory Theatre Company, in Shaw's "Apprentice" and one or two other plays; November 17 (circa) musical show, "Lucky Old Bill"; still later in November, Seattle Symphony Orchestra, for one day, and for a date yet to be fixed in November, "Dumbells."

The English Civic Opera Company's engagement is for two weeks in December, the exact date still to be fixed. Their repertoire includes "Merrie England," an operalized version of "The Merry Wives of Windsor," and "The Beggar's Opera."

SIR BARRY JACKSON

In January Sir Barry Jackson and the Birmingham Repertory Theatre Company will be here for two weeks, beginning January 23. The theatregoer is indebted to the activities of Sir Barry Jackson as having taken a leading part in the repertory theatre movement which is gaining such headway all through the English-speaking countries to-day. He has done more than any man living to make a wide public conversant with the work of the best dramatists of the day. From among the numerous Birmingham Repertory Theatre productions of the last season or two it is interesting at this date to guess which he will offer here.

Beginning February 2 the Carl Rosa Opera Company will fill a two weeks' engagement with grand opera in English. In this case, also, definite details are still not available as to the works to be performed.

The additional engagements, most of which will probably be companies similar to the Birmingham Repertory Theatre Company, will round out a season which promises to be one of the most interesting in many years. Compared with last year's singularly sterile programme it is rich in good things, and to all lovers of the spoken and sung drama will seem to augur well for the revival of the legitimate stage.

Luxton

The Luxton and Happy Valley Women's Institute will meet next Monday evening at the home of Mrs. Stuart Hutchison.

Master Alan Little of Victoria is holidaying at the home of Mrs. S. Hutchison.

OLD ENEMIES MET IN MOSCOW

Countess Karolyi Meets Bela Kuhn, Who Overthrew Husband in Revolution

Canadian Press
Moscow, Aug. 7.—Countess Karolyi and Bela Kuhn, the man who overthrew her husband in the Hungarian revolution twelve years ago, met here recently for the first time since the stormy post-war period in her native country.

The crossing of their paths was not so dramatic as it might have been in other years. The Countess, here for a brief visit, and Bela Kuhn, who holds a minor post in the Communist International, met quite by accident at the home of a mutual acquaintance.

They greeted each other politely with a perfunctory handshake, chatted a few minutes and then were swallowed up in separate groups at the gathering. Count Karolyi, who came here with his wife, had left for the Balkans before the meeting took place and the Countess did not see his old arch-enemy while he was here.

To-day the Countess declined to discuss the meeting.

Bela Kuhn, who returned to Russia after the Hungarian revolt and was reported to have been severely criticised by Lenin for his handling of the Hungarian situation, is back at work at his comparatively unimportant job.

VANCOUVER MAN LOSES LIFE AFTER AUTO ACCIDENT

Vancouver, Aug. 7.—Leaning upright against the rear door of his automobile, the body of Frank Hawley was found at 6:10 this morning in front of the home of a friend on East Sixteenth Street. On his head was a severe cut and the back of the tonyou was soaked with blood.

Police report that yesterday evening Hawley ran into a hydrant at Fifteenth Avenue and Kingsway. He was assisted to the East Sixteenth home, where he had been living for a few days. His friend was absent and Hawley, his rescuer not knowing he was injured, was told to remain with the car until his friend returned. Police believe Hawley subsequently tried to get into his friend's house, returned to the car and died while trying to climb back in.

Hawley, for some years a British Columbia Electric Railway motorman, was unmarried. He resided on Kaslo Street. He was fifty years of age.

St. Brideaux And Irene's Bob Win Track Features

Saratoga Springs, N.Y., Aug. 7.—The honor of winning the first stakes of the twenty-seven-day track meeting here yesterday went to Mrs. Payne Whitney's St. Brideaux and James E. Gaffney's Irene's Bob.

St. Brideaux, a stablemate of Twenty Grand and an offspring of the same sire, St. German's, showed the way to seven high class older horses to win the Saratoga Handicap and \$7,700. Irene's Bob, a colt of the same sire, won the running of the Flash and its accompanying purse of \$5,050.

Fifteen thousand race fans were out to witness the opening card.

Energy-giving Carbohydrates Found in Sugars, Sweet Fruits

By DR. MORRIS FISHEIN
The chief energy foods for the human body are the carbohydrates. Most carbohydrates are secured through plant life, such as the cereal grains, sugar, cane sugar, beet sugar, maple sugar, sweet fruits, vegetables such as potatoes, milk sugar, blood and liver. Thus, there is more than one kind of sugar. The chemists classify them as simple sugars, double sugars and complex sugars. All of them consist essentially of carbon, hydrogen and oxygen. The organic acids, such as the citric acid of oranges and lemons, the potassium acid tartrate of grapes, and the oxalic acid of various other foods are burned in the body to produce energy and are also calculated as carbohydrates, even though they have a lower fuel value than the sugars.

NEWSPAPER STAR HEADLINES SHOW FOR IDLE ACTORS

New York, Aug. 7.—Manhattan's most interesting theatrical experiment is under way.

The depression has hit the actors quite as hard as the musicians. And Alvin Karpis, the newspaper columnist, got the bright idea of putting on a revue which would be casted by out-of-work players and chorines. The sketches, costumes, songs and all the rest have been contributed by prominent theatre figures. Only the performers are paid, and they will share co-operatively the box office rewards.

If it works, the idea may grow and something new happen to Broadway.

VANCOUVER DOCTOR IS HONORED BY HOSPITAL BOARD

Vancouver, Aug. 7.—Expressing deep appreciation of the loyalty and integrity of Dr. R. A. Seymour, former assistant superintendent of the Vancouver General Hospital, who will leave August 20 to become superintendent of the hospital at Saskatoon, members of the board of directors tendered a dinner to Dr. Seymour at the hospital last evening.

F. J. Burd, chairman of the board, on behalf of the members, presented a pair of silver candelabra to the guest of honor, stating that on many occasions during the time which Dr. Seymour had been on the administrative staff he had "stepped into the breach" and conducted the affairs of the hospital in most creditable manner.

J. H. McVety, who is also president of the B.C. Hospital Association, stated that Vancouver's loss would be Saskatoon's gain.

SPORTS

JIMMY THOMPSON

NEW PAT'S PRESIDENT

Nick Pappas, who recently was elected unanimously to the vacant presidency of the Regina Patricias Hockey Club, has been actively interested in sport in Regina since arriving in that city, and his teams, under the captain of the Balmorals, have brought distinction to the city by winning several Saskatchewan championships.

Nick's baseball team of this summer looks like an odds-on favorite to cop the Saskatchewan provincial title, and the western Canada championship, if a play-off results from the work of the amateur authorities. The Balmoral basketball team was, up until a year ago, when it was disbanded, the provincial winner in Saskatchewan.

"Jerry the Greek," as he says he is known from coast to coast, stepped into the breach when the Pats were deprived of their president, Pete Egan, through a business transfer, and made such a capable job of the temporary appointment, that the players and members honored him with the presidency at their annual meeting.

At Ritchie is to be coach again this winter, and it is an open boast in Regina this summer, that the Pats will bring back the Memorial Cup.

RATTLESNAKES BARRED TO CONVICTS

Huntsville, Texas, Aug. 7.—Prisoners at Eastman State Farm cannot play with rattlesnakes any more. A ban on the sport was issued here yesterday by Captain Monahan, prison farm manager. He said the order became necessary when a convict returned to the farm bearing a snake with sixteen rattles.

New Westminster Royals Win Game At Calgary 3 to 1

Calgary, Aug. 7.—New Westminster Royals, soccer football champions of Canada, stopped off in Calgary long enough yesterday to demonstrate their ability on the pitch by defeating a local all-star team, 3 to 1, in an exhibition contest.

The champions appeared legweary after their recent strenuous programme, but they provided flashes of brilliant soccer, the kind that showed the fans why they are supreme in this sport in the Dominion.

Playing on a pitch that was greasy, while rain fell through the game, the visitors from the British Columbia city, famous for its athletic prowess, showed wonderful ball control and their passes seldom went astray.

MUSICIANS COMING BACK INTO OWN

New York, Aug. 7.—There is some indication that the appeals of musicians for the return of "their" music, as against the canned variety, is getting results.

Fawcetts report that dozens of musical instruments have recently been taken from stock. Oh yes, things were bad! And still are with hundreds of them.

The pawnbrokers also report that musicians hook practically every other form of valuable before falling back on their beloved fiddles.

CITIES URGED TO BASE LAWS OF TAXATION

Robert Baird, Inspector of Municipalities, Presents Annual Report

Falling Tax Revenues, Increased Land Reversions and Bonded Debt Marked 1930

The cities and municipalities of British Columbia in 1930 increased their assessed value of property by \$4,507,551, and lands taken in at tax sale were advanced to a total book asset of \$7,372,790, Robert Baird, inspector of Municipalities, shows in his annual report, published yesterday.

Mr. Baird accompanied the report with the following comment: "Unfortunately there is again an increase in the amount of arrears of taxes outstanding as well as an increase in the quantity of tax sale lands held. The properties involved in these items are almost entirely unimproved and unproductive. The owners of improved property have too long insisted upon placing a burden on these items, which they can bear, and the municipalities are to a greater extent every year being deprived of the useful revenue which, if taxes were levied upon these properties with more moderation, might be available from a substantial body of taxpayers who are now ceasing to pay. The record of British Columbia municipalities is one of which they might be justly proud, and conditions, even in difficult times, may be considered to be thoroughly sound. The new taxes levied on additional burdens imposed by the requirements of unemployment, it is more than ever necessary to conserve all the tax-paying ability of municipal territory, should, therefore, I think, be given to the retaining in private ownership of those non-productive areas which are falling to the municipalities through tax sale."

The accumulation of sinking funds was considered satisfactory, the total of \$28,888,889 being not far short of the required \$29,923,018, and amounting to 23.8 per cent of the total debenture debt at the close of the year. The debenture liability of the municipalities had mounted to \$125,532,088, being an increase of \$7,348,000 during the year. Mr. Baird shows that of thirty-three cities three had decreased their tax levy for 1931, and seven had increased the rate. Six of twenty-eight districts had increased the levy and seven had decreased taxes for the current year.

Receipts from sources by cities, municipalities and villages, had amounted to \$28,285,789 during the year, with \$17,748,816 received from taxes on land and buildings, and \$10,536,973 from government grants.

F. Robertson, 1907 Government Street, reported to police this morning an old frame print, valued at \$30, had been stolen from his place.

Fairfield Players' Club—The Fairfield Players' Club at its recent meeting chose their characters and arranged for the rehearsals of Neil Schaffner's play, "The Ghost Ship," which is to be presented this fall.

Business deals announced to-day include the expansion of the John C. Dick Bakery with the purchase and consolidation of William Peterbridge's Maple Leaf Bakery at 1235 Douglas Street, and the purchase of the bakery at 1235 Douglas Street by Mrs. Cornwall of Oak Bay, who is starting a downtown business to deal in bakery specialties.

The monthly meeting of the Lake Hill Women's Institute was held on Tuesday afternoon. Sixteen members were present, with Mrs. R. W. in the chair. Taggers were allotted for the TB. Veterans' Association on August 15, and a grant of \$3 was made to the association. A. M. Stephens, president of the Victoria and Island Authors' Association, and M. Stephens, secretary of the league; Freeman Hough, president of the Seattle chapter, and Arlene Lamson, president of the National Chapter of American Penwomen.

The Victoria Cymrodorion Society will commence its winter session on Friday evening, August 14, at 8 o'clock. The programme, with a very interesting musical programme, commencing at 8 o'clock. The following numbers will be given: Vocal solos, Dorothy Burgess; violin solos, Dr. Bryce, Dorothy and songs, Joyce Hodges; vocal duet, Misses H. Bowden and H. Dobson; piano solo, Faith Cayley; vocal solos, Mrs. W. Cawgan Williams; Bowerly dance, Grace Hay and Beatrice Stromking; tenor solos, William George Guy; guitar duet, Miss Alex. Williams, and W. Clarke; vocal solos, T. Roberts. The artists will be accompanied by Mrs. R. Mason. At the close of the entertainment refreshments will be served by Mrs. R. T. Williams.

At the lecture to be given in the Chamber of Commerce by Clarence Elliott this evening, Mrs. R. P. Butchart will present the challenge cup and medals awarded by the Vancouver Island Horticultural Association for best three gardens on Vancouver Island. Mr. Elliott, who is very well known as a plant collector and a designer of rock gardens, has been lecturing recently at many of the big cities in the United States under the auspices of the Garden Clubs of America, and has lantern slides illustrating some of the famous rock gardens of England as well as showing his experiences on a plant hunting trip through the Andes. During an interval in the lecture A. E. Batters, president of the Vancouver Association, will announce the names of the winners in the Island garden competition and call upon Mrs. Butchart, who has very kindly undertaken the duty, to present them with the awards.

Gasoline And Powder Blow Up At Nanaimo

Special To The Times

Nanaimo, Aug. 7.—Fire destroyed the equipment hut of the Provincial Public Works Department at Nanaimo River Bridge this morning, under unusual circumstances. The hut contained tools, surveyors instruments, two drums of gasoline and other implements valued at \$500.

At 3 o'clock explosion of gasoline in the hut alarmed nearby residents who thought it was earthquake. A box of powder and a supply of caps were in the hut.

Telephone wires to Victoria were burned down and communication was cut off until 8:30 o'clock.

MANITOBA'S TAIL FAILS AGAINST B.C.

Win For B.C. To-day Will Bring Them Western Canada Cricket Championship

Alberta Not Having Things All Their Own Way Against Saskatchewan

Just needing a win today to bring them the western Canada cricket championship, British Columbia had put nine Manitoba batsmen out for 140 runs when stumps were drawn for lunch, and appeared in a commanding position. The failure of Manitoba's tail to wag put a different complexion on the match around noon.

Before Reg Wenman got Gillespie, Manitoba's left-handed hitter, in the only over he bowled, the score stood fifty-five, had run up the century with a beautiful six off Rhodes, and was batting confidently. After Gillespie's exit, "stone wall" Whitworth and Dowling, who carried the score to 130 before Bullen bowled the latter, Bullen also got Keel's wicket cheaply, and with the two succeeding batsmen, Schumppf and Millidge, both stumped, the score was 135. Bullen joined Whitworth, and the pair were unbeaten at lunch, Whitworth being twenty-one.

ALBERTA-SASKATCHEWAN
Falck, the free hitting Albertan whose scores to date have been thirty-five, 60 not out, forty-three and fifty, started his team off wrongly against Saskatchewan by being caught when he had made one. Though Cartwright and Parker staged a partnership, the two following bowlers, Higginson and Bullen, made "ducks," and for a run-getting team like Alberta, the performance was not good.

Runs came slowly and with Ball bowling well, there were many setbacks to see of. At the interval, Wright, Alberta's captain, and Hesketh, were together in a ninth wicket partnership and the board read 118.

NO LAND SOLD TO VEREGIN IN SASKATCHEWAN
Regina, Aug. 7.—Flat denial of Peter Veregin's claim that he had purchased large tracts of land in Saskatchewan for settlement of 20,000 Doukhobors now in Russia was contained in a statement issued by Premier Anderson.

The stand taken by the government of this province is that no body of immigrants should be admitted under any other country under present conditions, declared the Premier, "and Peter Veregin's evident determination to defy the immigration laws of this country deserves the serious consideration of the people of Canada."

"The statement," the Premier continued, "that he has purchased tracts of land and is having them cleared for prospective immigrants is, in my opinion, absolutely false."

MICKY MOUSE CLUBS ARE NOW BEING FORMED

Membership Has Reached 400,000, Says H. H. Beall of Walt Disney Productions

Production of Popular Funny Film Is Described

Mickey Mouse clubs are becoming an institution with the youngsters of the United States and Canada, according to Harry Hammond Beall, general press representative for the Walt Disney Productions Ltd., producers of the Mickey Mouse sound cartoons of the silver screen, who is holidaying in Victoria with Mrs. Beall from Hollywood.

Four hundred thousand boys and girls of the United States and Canada have been enrolled in the Mickey Mouse clubs, with Chief Mickey and his friends Minnie as the outstanding lodge dignitaries, said Mr. Beall at the Empress Hotel to-day, in telling of the original production of one of the most popular funny films produced.

LUMINOUS PANTOMIME
For nearly two years now the people of Canada and the United States have been laughing at the ludicrous pantomime of Mickey and Minnie Mouse on the screen. All the chief European countries are now becoming enthusiastic over the children's feature, from which parents get equal enjoyment.

The feature has become so popular that even suspenders, socks and ties are being named after it. It is said that the Princess Elizabeth, who may be a future queen of Great Britain, has a Mickey Mouse dachshund on the wallpaper of her playroom.

HOW IT ORIGINATED
The Mickey Mouse sound cartoons were originated about two years ago by Walt Disney, a commercial artist of Kansas City, who used to draw amusing characters for a living before he conceived the bright idea which has made him famous. It was after the termination of the war that Walt Disney went to Hollywood and hit upon the Mickey Mouse idea. Two films are turned out each month, one a Mickey Mouse feature and another known as Silly Symphony.

The cartoons, drawn by Walt Disney, are based upon old-time books of prize-fights and other scenes which, when flipped like the shuffling of a pack of cards, make the impression of moving pictures.

DRAWINGS ARE FRAMED
The several thousand drawings that are made by the originator, including such characters as Mickey Mouse, Minnie Mouse, Clarabelle Cow, Horace and Pluto the Pup, are photographed separately, embracing thirty drawings to a frame. One hundred artists are engaged on one picture, with each artist doing a different part of the picture to furnish the music.

Walt Disney is the first cartoonist to synchronize his cartoons with perfect music. The score is complete and is in detail by the musicians before the film is started and the music for each frame is prepared before the cameramen start to shoot. To obtain the correct synchronization, the music is put on the sound tracks separately and the result is perfect synchronization of sound and moving picture.

The ramifications of the production end are almost inconceivable. The cost of each picture, says Mr. Beall, is between \$50,000 and \$50,000.

UNITED ARTIST FEATURE
Columbia has been presenting the Mickey Mouse features to date, but after the first of the year, Mr. Beall announces, the funny features will be produced by United Artists, along with Charlie Chaplin, Doug Fairbanks, Mary Pickford, Gloria Swanson and Ronald Colman.

Hydro Inquiry In Ontario Is Now Planned
Committee Expected to Investigate Administration at Next Legislature Session
Premier and Commission Chairman Say \$50,000 Payment to Aird Justified

Toronto, Aug. 7.—The Ontario Globe this morning said: "Complete investigation of the hydro situation in this province will be the next session of the Legislature."

"A special committee from the House membership, with Hon. William Flavelson, Minister of Lands and Forests, as probable chairman, will, it is understood, make the inquiry."

"Every angle of hydro activity, including the Madawaska power purchase, with which the commission payment of \$50,000 to John Aird Jr. is connected, will, it is said, be thrown open, if desired, to interrogation."

"The government, it is reported, is determined to clear the air with regard to commission purchases and commission policy to set at rest, once and for all time, as The Globe is informed, stories and suspicions regarding commission administration particularly since the Beauchamp probe at Ottawa."

STATEMENT BY CHAIRMAN
Canadian Press
Toronto, Aug. 7.—Payment of \$50,000 to John Aird Jr. of Toronto, by the Ontario Hydro-electric Power Commission in connection with the purchase of Madawaska River power rights, was fully justified, according to a statement issued yesterday evening by Hon. J. E. Cooke, Minister without portfolio and chairman of the commission. The Madawaska properties were purchased from the M. J. O'Brien interests by the commission in 1920.

Hon. George S. Henry, Premier of Ontario, declared he had seen the statement, was in accord with it, and

ON FORMAL DEMAND
Premier Henry earlier yesterday said that should a definite demand be made that he would be prepared to place before the Legislature at its next session the question of appointing a special committee to inquire into the payment of \$50,000 by the commission to John Aird Jr. Mr. Henry intimated he did not himself see the need for a royal commission.

The Premier, speaking of the Ontario Hydro Commission's Madawaska contract, admitted John Aird Jr. was paid \$50,000 in the purchase of a 1,850,000. Premier Henry, however, did not say the Hydro knew Aird was to receive \$50,000 but knew he was to be "taken care of" for bringing the parties together after the original demand had been more than \$2,000,000. Premier Henry agreed this had been a "commission."

Vancouver, Aug. 7.—Vancouver Rotary Club on Thursday handed C. J. McNeely, one of the governors of the Vancouver Tuberculosis Preventorium, a cheque for \$10,000 to be used for the establishment and equipment of the institution. The money was raised by the club at its annual ice carnival, held on the old city hospital building on the old city street. Alterations to the structure have been started, and it is expected the premises will be ready for occupation about September 1. Total cost of alterations and equipment will be about \$15,000.

Squawking Continues in Senior Ball League This Season
Fans Restless as Teams Quarrel Over Umpires
Fine-looking Women Taking Part in Athletics
Four U.S. Heavyweights May Soon Prove Dangerous to Schmeling

OFFICIALS of the Senior Amateur Baseball League still have a number of problems to solve. On Wednesday evening the Sons of Canada, for the second time this season, refused to start play with certain officials in charge. The game was held up several minutes, but after being told they would default the game if not ready to play in five minutes, the Sons decided to go on with the game. On one other occasion this season the Sons refused to take the field with certain officials in charge, and the game was delayed several minutes while other umpires were obtained.

Some working agreement should be reached between the teams and league officials over umpires. Games should not be held up in this manner. The fact becomes apparent that the umpires are restless at delays of this nature and they are the people who must be considered. No team should be allowed to dictate to the league what umpire they will play under and so forth. Let the league, or board of governors who handle the arbitrators in the Victoria league, name the officials to act at the games and stick by the decisions.

This action of a team refusing to go on the field under certain umpires is injuring the game. If the umpires are appointed and a team refuses to play under them, then that club should come in for a severe reprimand. There has been too much arguing and squawking over umpires in the ball league this season. If the teams would forget it and play ball things would be better for the game. Fans clearly demonstrated on Wednesday evening they are displeased.

A Hollywood musee named Sylvia Ullrich has come out with a statement that no woman athlete is beautiful. The facts do not uphold Sylvia's contention. The first good example that comes to mind is Esther Catherwood, Regina, world's high jump champion. She has been an athlete all her life—sprinting, high jumping, basketball, tennis, softball and riding. She could line up with any Nancy Carolles and Greta Garbos, and not come out second best. Ethel had a chance to enter the movies and turned it down. She was voted the most beautiful girl at the last Olympic games.

A few masculine types have reached the heights in women's athletics, but the great majority have retained all their feminine charms. Just take a look at Betty Nuthall, Helen Hicks, Georgia Coleman, Eleanor Holm and Helen Wills. None of these young ladies are what might be called ugly ducklings.

There is a possibility that by the time Max Schmeling is ready to return to the United States and defend his heavyweight championship there will be three or four men able to give him a tough bout.

We have in mine Ernie Schaefer, Stanley Forde, Charley Betts and Steve Harns. These fellows every day in every way are becoming tougher and tougher.

Schaefer is in Sharkey stable in Boston, but aside from that he has no bad habits. He seems not to have come under the Sharkey influence. He doesn't fight a bit like the sailor. When he gets in there he goes from going to going in a crowd-planner, he's a sure crowd-pleaser. He recently demonstrated his punch by two knockouts over Jimmy Harris, while some of the customers still were looking for their seats.

Forede, a young fellow of Polish origin, is being brought along carefully by Billy Reppenhagen, Jersey City. Among other victories he has scored lately was a decision over John Rocco. He left-handed and over-percuted Rocco into a state of walking delirium. He was offered to Rocco in a semi-windup to the Schmeling-strangling affair, but John wanted a bit too much sugar for another meeting with Stanley, a desire probably having some bearing upon the pasting he previously had taken from the Pole.

J. A. Byerly, Portland, last year's champion, has filed his entry and will make a determined bid to win his second successive crown. Capt. J. V. Perks, secretary of the association, released the entry list to-day which disclosed entries from Seattle, Portland, Tacoma, Spokane, Everett, Aberdeen, Yakima, Walla Walla, Port Angeles, Vancouver, New Westminster and Victoria.

SEATTLE TOPS ENTRIES
Seattle has the largest entry list to date with Portland and Victoria running neck and neck for second honors. Vancouver and Tacoma both have good entry lists and, with so many players coming, one of the best tournaments in the history of the association is looked for.

On Tuesday morning the eighteen-hole qualifying round for the association championships will be played. The sixteen best gross scores qualify for the grand championship, while the remainder of the field will be divided off into their various classes according to age. Play will continue through to Friday with the finals in the grand and other championships being played. Friday afternoon the international match will be played between the visitors and Victoria players for possession of the Nicol Cup.

Pictured above are several of the leading players in the British Columbia lawn tennis championship being played this week on the courts of the Victoria Lawn Tennis Club. At the upper left are seen Wally Scott and Lloyd Nordstrom, of Tacoma and Seattle, respectively, who captured the P.N.W. sectional doubles championship on Wednesday. At the upper right is seen Mel Dranga, Seattle ace, and winner of the P.N.W. sectional singles championship. The dark curly-haired chap at the lower left is John Murio, San Francisco Hawaiian, winner of many Pacific northwest titles this season and favorite in the B.C. tournament. The smiling young lady beside him is Olive Wade, Toronto, last year's Canadian champion, and one of the favorites in the women's singles here. On the lower right is seen Mrs. D. Perow, San Francisco, doubles partner of Edith Cross. The team favored to win the women's doubles crown.

Scottish Football Teams Swing Into Action Saturday

Clubs Will Commence Long Schedule With Opening League Matches; Glasgow Rangers and Celtic Who Have Monopolized First Division for Some Many Years Again Appear Strongest; Both Clubs Sign Number of New Men; Prospects Look Brightest in Last Four Years

Glasgow, Scotland, Aug. 7.—Prospects for the new Scottish soccer season which opens on Saturday are much brighter than for the last four years. This is so even though economic conditions in most localities do not hold out great hopes of increased financial reward for clubs whose existence since the big slump commenced has been a succession of nightmares in the shape of bank overdrafts with occasional gleams through the sale of players to wealthy English clubs. The settlement of the four-year-old dispute with the intermediate clubs has released a big number of seasoned players for senior football and the scramble for the best of them has been a feature of the last two months. Generally the best of the newcomers have gone to the bigger clubs.

Sam English, Yorker's centre forward, with a total of 200 goals in three seasons, will appear on Saturday against Dundee on the Rangers team despite the champions' strong reserve contingent. Hearts, another club with plenty of seasoned men on their books, will give J. Smith, Clydebank's clever inside forward, a run in their opening game.

MANY NEW PLAYERS
The Scottish League championship has been a monopoly of Rangers and Celtic so long that it would be an impetus to competition should some other club win it this season. Every one is hopeful but not optimistic for both Rangers and Celtic have all their last season's regulars to fall back on. Alan Morton, Doyen of International players, has signed for the Rangers again and, in addition to English, they have signed W. R. Deane, right half of the Clydebank Juniors, McDonald, the Irish-Canadian halfback, and McGahey, whom they picked up on a United States tour. All these players lenders to the old firm, Motherwell's

Yanks Still Hold Hopes And Defeat A's By Two Run

New York Club, Fourteen Games Behind American League Leaders, Confident of Making Race Closer and Stagger Through to 5 to 3 Win Over Champion Babe Ruth Hits Thirtieth Home Run; Washington Wins Easily; Giants Lose Chance to Gain National Race

Prospects for development of an exciting pennant race is very slim when a "crucial" series starts with the challenge team fifteen games behind the league leader. But if the New York Yanks have anything to say about it, Philadelphia's Athletics are not going to win the flag again without a real battle.

The Yanks started what appears to be their final challenge yesterday in the opener of a three-game series with the Athletics. Figuring that if they could win all three they might have a chance to overhaul the leaders, the Yanks were out to win, and they staggered through to a 5 to 3 victory which left them only fourteen games behind Philadelphia and exactly where they started in relation to the second-place Washington Club.

The Yanks jumped on Rube Walberg in the first inning, bunching three hits with many walks for four runs. But they could not score again until the fifth, when Babe Ruth dropped his thirtieth homer of the year into the bleachers. Vernon Gomez pitched a fine game until the ninth, when the A's got to him for two runs with none out and Henry Johnson was called to the rescue. Johnson struck out two men and forced Eric McNair to pop up with the bases loaded.

SENATORS WIN EASILY
Washington, meanwhile, had an easy time, defeating the Boston Red Sox 15 to 4. The Senators were in command ahead of the Yanks and eleven behind the Athletics. The Senators staged a batting spree against Jack Russell that produced eight runs in five innings, then finished up with seven more tallies off Durham in the eighth. They made twenty hits altogether, while Fred Marberry held the Sox to four.

The rest of the American League teams, which range from 25 1/2 to 27 1/2 games behind first place, continued to fight in a lively manner among themselves. The fourth place Cleveland Indians came through to a 4 to 3 triumph over the fall-end Detroit Tigers, when Vic Sorrell, successor to Art Herring, walked four men in the ninth inning and forced in the winning run. Chicago took a 7 to 6 decision from the St. Louis Browns on the strength of a seventh inning rally for four runs. A homer by Carl Reynolds was the finishing blow.

With the first two teams in the National League idle, the New York Giants lost a good chance to gain when they allowed the Phillies to take a 5 to 4 decision. Each team made thirteen hits, but Fred Blake, the Chicago castoff, kept the Giants' blows well spread out to record his third straight victory for the Phils.

Brooklyn's Robins were more successful, leaning on Ben Cantwell for four runs in the first inning and holding that margin to defeat the Boston Braves 7 to 3. Old Adolfo Luque gained credit for the victory when he relieved Babe Phelps, who had the bases full and two Boston runs across in the fifth and prevented further Braves scoring. The first three Brooklyn batters, Frederick, Herman, and Herman, collected eight of the Robins' fifteen hits.

After going seven games without a win and taking four shutout defeats from the Pittsburgh Pirates in the course of their losing streak, the Cincinnati Reds finally came through with three runs off Glen Spence in the eighth inning of yesterday's clash with the Buccaneers and won by 3 to 2. Spencer contributed a three-base error to his defeat, giving two doubles in the big inning.

AMERICAN LEAGUE
New York Aug. 7.—Henry Johnson came in to check an Athletic rally in the ninth inning yesterday and the Yankees won the first game of a three-game series, 5 to 3. The Yanks hit the thirtieth homer of the season to get within one of Gehrig, major league leader.

Batteries: Walberg, Mahaffey and Cochrane; Gomez, Johnson and Dickey. Washington, Aug. 7.—Washington smothered the Boston Red Sox yesterday, 15 to 1, in the opener of a three-game series. The Senators collected thirteen hits, while the Sox had only four. Batteries: Durham and Berry; Connally; Marberry and Spencer, Bolton.

Detroit, Aug. 7.—Sorrell's wildness in the ninth inning gave the Cleveland Indians an unexpected run, which enabled them to defeat the Tigers, 4 to 3 yesterday. Batteries: Sorrell and Hayworth.

Chicago, Aug. 7.—Carl Reynolds' home run in the seventh inning yesterday gave the White Sox a 7 to 6 victory over St. Louis. Batteries: Collins, Stewart, Gray and Ferrell; Caraway, Thomas and Tate.

NATIONAL LEAGUE
Philadelphia, Aug. 7.—The Phillies hammered John Berly and Bud Parnell when the hits counted yesterday and defeated the New York Giants 6 to 4. Fred Blake was taken out in the ninth inning as the Giants threatened. Batteries: Beryl, Parnell and Horgan; Blake, J. Elliott and McCurdy.

Sun Beau Will Go After Rich Prize To-morrow

Chicago, Aug. 7.—Unless it rains and makes the Hawthorne track heavy, Sun Beau will try to win a \$25,000 to \$30,000 to his winnings in the Hawthorne handicap to-morrow.

Willis Sharpe Kilmer's record money winner, in spite of a weight assignment of 131 pounds, was favored to outfoot all opposition a mile and an eighth in the \$25,000 added feature of Hawthorne's summer meeting.

Mike Hall, who defeated Sun Beau in the \$100,000 Agua Caliente handicap last March, and Gallatin Knight, who has been trying a season's rest, are expected to furnish the opposition.

JOE STECHER SENDS KRUSE TO CLEANER

Famous Scissors Expert Spent Portlander Fall and The Ends Bout in Fifth

Kruse Quits For Third: Jack McLaughlin Is Easy Winner

Vancouver, Aug. 7.—"Rough 'em" Robert Kruse, was cut down by Jack McLaughlin, who was out of his prime yesterday evening by those deadly scissors of Joe Stecher, the big twist and squirm man from the plains of Iowa. Robert made quite a battle of it, and was giving Joe no end of trouble till he fell victim to a body scissors in the fourth. That was one fall for Joe. The process was repeated in the fifth round, and Vancouver's wrestling shows concluded for some time.

Brother Tony Stecher crawled 1 way to a one-fall decision over Hans Schneider, a German, who came from Milwaukee in the semi-windup and Ted Williams, the boy from Cincinnati, wasn't in the same class. Jack finished him in two rounds neither of which went a minute.

KRUSE GAINS FALL
In the main event Kruse grabbed off a fall in the second round, got Joe on the ropes with a reverse body and one of those gentle but arms, after considerable rough work and kept Joe there.

Kruse kept away from those scissors in the third, but only by dodging out of the ropes, and taking J. out once too. Came the fourth, Joe decided he had enough, he slapped Bob once or twice with the elbows of his, then wound his legs around Robert's midriff. That was one and it took 2 minutes 35 seconds.

It took Stecher just 1 minute 5 seconds to invade Kruse into a scissor hold again in the fifth round and make him quit.

Ben Cantwell for four runs in the first inning yesterday and went on from there to defeat the Braves, 7 to 3.

Wives

When Wives Lose Their Husbands, It Is Not The Result of Time or Avoirduois, But of A Lack of Tact, Lack of Love, Excess of Domesticity or a Penchant for Criticism

AMONG the mistakes that wives make are these: Forgetting that they have married men. Some women seem to think that they have married demigods and are terribly upset and disappointed that their husbands are just mere, ordinary, human beings, with the usual assortment of culinary faults and frailties. Other women consider that they have been married in the holy bonds of matrimony to cash registers, and all the use they have for their husbands is to cash them for enough money to pay their bills.

Before she married every wife had a good, reliable recipe for working men. Otherwise she would have married a demigod. She caught her husband by flattery and cajoling him, by sympathizing with him, by listening with rapt attention while he talked about himself and his plans and hopes and ambitions. He married her in the fond belief that he had, at last, found the person who really appreciated him and that he would find in her an audience that would hang upon his words and always give him the glad hand.

But in most cases after marriage the wife disdains to employ the tactics of flattery and cajoling that she used in catching him. From being a yes-woman she turns into a no-woman. Instead of applauding her husband she criticizes his faults. Instead of lending an ear to his stories she tells him of her own. Instead of appreciating his generosity she takes all that he gives her as no more than her due and roaches him because it isn't more.

It is only once in a hundred times that you see a wife who treats her husband after marriage in the way she treated him before marriage, and when you do you also behold a husband who is eating out of his wife's hand.

The second mistake that wives make is in ceasing to be lady loves. Too many wives regard the marriage license as a license to appear before their husbands in sloppy wrappers and with cold cream on their faces and smelling onions. Also, they feel that there is no use in wasting any sentiment or romance or soft talk on a mere husband.

They forget that men are just as heart hungry as women are and that every man longs for his wife to tell him that he is still the hero of her girlish dreams and that she loves him better every day of her life. If she forgets that he craves a kiss that is warm with passion instead of the perfunctory peck on the cheek that she gives him and that is as flabby and flavorless as a cold flapjack.

No wife makes a greater mistake than she who believes that her husband is going to be satisfied with a placid affection that manifests itself in mending his socks. He wants love that says it in words and caresses, and he doesn't find it at home he seeks it abroad.

The third mistake that wives make is in going too domestic. Of course, a man wants his wife to be a good housekeeper and a good mother, but he doesn't want her eternally to smell of bread and butter and to have no interest outside of the children. Yet many women do this.

There are plenty of women who get so absorbed in their homes that they have no interest in anything else on earth. They never read, never think, never have an original idea, and their conversational range is from the chicken to the nursery and back again. And there are millions of women who never see their husbands as a man again after their first baby is born. Hereafter he exists only as the children's father, not to be considered or thought of except as a purveyor to the needs and wants of the children.

Babies have broken up more homes and led to more divorces than all the sheikhs and sheikhs rolled together.

The fourth mistake that wives make is in being poor sports. A lot of them throw up their hands and quit cold when they find out that marriage is a perpetual party and that their husbands are not movie heroes but just ordinary human beings and that marriage exacts work and sacrifice from both man and woman just as it does from a man.

Half of the alimony collectors never even made an honest attempt to make their marriage a success.

And a lot of other wives are whiners and complainers who are always telling out a tale of woe about how dull and monotonous housework is and how many hours they had to stand over the kitchen stove and what sacrifices mother has to make and so on, and who generally make their husbands feel like slave-drivers who are persecuting an innocent woman.

And nobody but their wives blame the husbands of these sob sisters for fleeing from them to ladies who are more cheerful company.

And perhaps the biggest mistake of all that wives make is in being critics to the hilt. Very many wives consider that it is a wife's sacred duty to keep all in her power to break down her husband's morale by continually keeping before him all of his defects and reminding him continually of the mistakes he has made and drawing invidious comparisons between him and other men.

No woman ever makes a greater mistake than this, for the one person whose faith in him a man must have is his wife, and if she does not believe in him he soon ceases to believe in himself, and then all is over except winding up the bankruptcy.

Possibly it may be good for a man's soul to have a wife who criticizes his manner and pronunciation and table manners, but her hand opens the door for the other woman who tells him how great and wise and wonderful he is. When women lose their husbands they always lay it on age and fat, and it isn't really their fault, it is because they are. DOROTHY DIX.

When You Go Swimming

On a summer day, years ago, I received a letter from an eight-year-old boy named Paul. He wrote: "My big brothers said they were going to teach me how to swim. They took me out in a boat and threw me in. I thought I was a goner at first, but I didn't. I swam back to the boat."

Swimming brings almost every muscle into play

of any kind. Some people carry fear of water all through life just because they were frightened during childhood. It properly carried out, swimming is one of the best exercises. It brings into play almost every muscle in the body. Many persons do a good deal of diving during hours at the beach or "water hole." If you dive, be sure the water is deep enough. Divers have been killed by striking their heads against the bottom. Also be careful not to slip on the springboard or pier, else you may be seriously hurt.

After your swim, or "between courses," you may lie in the sun and let the health-giving rays of the sun beat against your skin. This will be good for you up to a certain point; but the periods of "sun bathing" ought not to be too long. Five minutes will be enough for the first time, but you may increase the amount on later visits to the beach. If you take your sun bathing slowly, you probably will not be sunburned.

John Weissmuller, a famous swimmer, swam 100 yards in fifty-one seconds back in 1927. This is about one-fifth the speed a fast runner can make over the ground.

Long distance swimmers sometimes travel at the rate of more than a mile and a half an hour. Twenty years ago, Thomas Burgess, an Englishman, swam across the English Channel in twenty-two hours and three minutes, covering a distance of thirty-nine miles.
